What is the Fund about?

AmBalanced is a balanced fund issued by AmFunds Management Berhad (the "Manager") that aims to grow the value of investments in the long-term* with lower volatility through asset diversification.

Who is the Fund suitable for?

The Fund is suitable for investors:

- seeking long-term* investment goals;
- seeking to maintain your principal with potential capital appreciation and lower volatility through a diversified portfolio of mixed assets; and
- seeking potential steady growth.

*Note: * Long-term refers to a period of at least five (5) years.*

What am I investing in?

Fund Category	Balanced.
Fund Type	Growth.
Investment Objective	AmBalanced aims to grow the value of investments in the long-term with lower volatility through asset diversification. <i>Note: Any material change to the investment objective of the Fund would require unit holders' approval.</i>
Investment Strategy	The Fund invests in equities and fixed income instruments ranging between 30% and 70% for either asset class. In managing the Fund, the Manager may opt to invest in the investments either directly or via collective investment schemes. Equity The Fund can invest up to a maximum 70% of its net asset value ("NAV") in equities. Value-add from equity investments is derived from active stock selection with focus on undervalued stock relative to its earnings growth potential and/or its intrinsic value. In the event that outlook for equity investments is not conducive, the Fund can choose to have a minimum exposure of 30% in equity securities. Fixed Income The Fund can invest up to a maximum 70% of its NAV in fixed income instruments. In buying and selling fixed income instruments for the Fund, the Manager uses active tactical duration management (where duration of the portfolio of the Fund will be monitored and modified according to interest rate outlook without any portfolio maturity limitation), yield curve positioning and credit spread arbitraging. This approach also involves an analysis of general economic and market conditions. It also involves the use of models that analyze and compare expected returns and assumed risk. Under this approach, the Manager will focus on fixed income instruments that would deliver favorable return in light of the risk. The Manager may also consider obligations with a more favorable or improving credit or industry outlook that provide the potential for capital appreciation. In the event that outlook for fixed income investments is not conducive, the Fund can choose to have a minimum exposure of 30% in fixed income instruments. The Manager will also employ an active trading strategy in managing the Fund. The Fund invests in Malaysia and to a lesser extent, in foreign eligible markets. The Fund is actively managed. In an adverse market condition, the Manager may reduce its portion of higher risk assets such as equities and increase its asset allocation in assets that carry lower risk than equities such as fixed income instruments at the expense of the equities asset allocation (i.e. to increase the allocation in liquid assets or fixed income instruments), to safeguard the return of the Fund.
Asset Allocation	• 30% and 70% of the Fund's NAV will be invested in equities; • 30% and 70% of the Fund's NAV in fixed income instruments; and • At least 5% of the Fund's NAV in liquid assets.
Base Currency	Ringgit Malaysia (RM).
Performance Benchmark	• 50% Medium MGS Index by Quantshop.

	50% FTSE Bursa Malaysia Top 100 Index¹. (obtainable from: www.aminvest.com) <i>Note: The composite benchmark index is a reflection of the Fund's average asset allocation over the medium to long-term. For the equities portion of the Fund the performance benchmark will be FTSE Bursa Malaysia Top 100 Index and for the fixed income portion it will be the Quantshop Medium MGS Index. The benchmark is for performance comparison only. The risk profile of the performance benchmark is not the same as the risk profile of the Fund.</i>
Launch Date	16 September 2003
Income Distribution	Income distribution (if any) is incidental.

Who am I investing with?

Manager	: AmFunds Management Berhad ("AFM")
Trustee	: HSBC (Malaysia) Trustee Berhad
Trustee's Delegate (Custodian)	: The Hongkong and Shanghai Banking Corporation Limited
Taxation Advisor	: Deloitte Malaysia Tax Services Sdn. Bhd. (formerly known as Deloitte Tax Services Sdn. Bhd.)
Auditor	: Ernst & Young PLT

All transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties. The Fund may have dealings with parties related to the Manager. The related parties defined are AmIslamic Funds Management Sdn Bhd, AmInvestment Bank Berhad, AmInvestment Group Berhad, AmBank (M) Berhad and AmBank Islamic Berhad. The directors of AFM may have direct or indirect interest through their directorships in parties related to AFM.

The Manager may conduct cross trades between funds and private mandates it currently manages provided that all criteria imposed by the regulators are met. Notwithstanding, cross trades between the personal account of an employee of the Manager and the Fund's account and between the Manager's proprietary trading accounts and the Fund's account are strictly prohibited. The execution of cross trade will be reported to the investment committee and disclosed in the Fund's report accordingly.

What are the possible outcomes of my investment?

Best Case	Capital appreciation and income distribution.
Mid Case	No significant change in investment i.e. no capital appreciation and no income distribution.
Worst Case	Capital loss and with no income distribution.

What are the key risks associated with the Fund?

General risks associated with investing in a unit trust fund

Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors resulting in a decline in a fund's NAV.
Inflation Risk	This is the risk that investors' investment in a fund may not grow or generate income at a rate that keeps pace with inflation.
Manager's Risk	This risk refers to the day-to-day management of a fund by the manager which will impact the performance of a fund.
Non-Compliance Risk	This is the risk of the manager, the investment manager or the trustee not complying with their respective internal policies, the deed and its supplemental deeds, securities law or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of a fund.
Loan Financing Risk	This risk occurs when investors take a loan / financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments.
Country Risk	Investments of a fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which a fund invests in.
Suspension Risk	Refers to situation where the Manager suspends dealings of units in a fund (no redemption or subscription are allowed) under exceptional circumstances as set out in the Prospectus - Temporary suspension of determination of NAV and of the issue, switching and redemption of units. Suspension of a fund may potentially result in unit holders not being able to redeem their units into cash based on their liquidity needs and their investments will continue to be subject to the risk factors inherent in the Fund.

Specific risks associated with the Fund

Credit and Default Risk	Credit risk relates to the creditworthiness of the issuers of the fixed income instruments and their expected ability to make timely payment of profit or interest and/or principal. Default risk relates to the risk that an issuer of a fixed income instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the fixed income instruments.
Stock Specific Risk	Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies.
Currency Risk	As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments.

Interest Rate Risk	Interest rate risk refers to the impact of interest rate changes on the valuation of fixed income instruments. When interest rates rise, fixed income instruments prices generally decline and this may lower the market value of the Fund's investment in fixed income instruments. The reverse may apply when interest rates fall.
Liquidity Risk	Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund and consequently the value of the Unit Holders' investments in the Fund will be negatively affected when it has to sell such assets at unfavourable prices.
Counterparty Credit Risk	Counterparty credit risk is the risk arising from the possibility that the counterparty may default or not able to fulfill a trade settlement prior or on the settlement date of the trade. This could adversely affect the value of the Fund.

Note: The abovementioned risks which investors should consider before investing into the Fund should not be considered to be an exhaustive list. Investors should be aware that investments in the Fund may be exposed to other unforeseeable risks from time to time. Investors are advised to consult their professional adviser. Please refer to the Prospectus under "Risk Factors" for further details on risks.

Please note that if you invest in units through a distributor via a nominee system of ownership, you will not be deemed a unit holder under the deed of the Fund.

What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before investing in the Fund.

What will I be charged by AFM?

Entry Charge	Up to 6.00% of the NAV per unit of the Fund. <i>Notes: The entry charge is to be charged upon investment in the Fund. There will be no entry charge for all staff from AmBank Group. Investors are advised that they may negotiate for lower entry charge prior to the conclusion of the sales. Investment under the Employees Provident Fund – Members Investment Scheme ("EPF-MIS") will be levied an entry charge of up to 3.00% of the NAV per unit.</i>
Exit Penalty	There is no exit penalty for this Fund.
Transfer Fee	Nil.
Bank Charges/Fees	Bank charges or fees are incurred only upon withdrawals.
Switching Fee	For switches between any of the funds managed by AFM, investors will be charged on the differences of entry charge between funds switched, which is up to a maximum of 6% of NAV per unit of the fund switched into. No entry charge will be imposed if the fund to be switched into has a lower entry charge. However, the Manager has the discretion to waive or reduce the switching fee. Switching may also be subject to an exit penalty should the fund switched out impose an exit penalty.

What are the key ongoing fees charged to the Fund?

Annual Management Fee	Up to 1.50% per annum of the NAV of the Fund.
Annual Trustee Fee	Up to 0.05% per annum of the NAV of the Fund.

Note: Unless stated otherwise, all fees, charges and/or expenses disclosed in the Product Highlights Sheet are exclusive by way of example and not limitation; goods and services tax, value added tax, consumption tax, levies, duties and other taxes as may be imposed by the Government of Malaysia from time to time (collectively known as "Taxes"). If these fees, charges and/or expenses are subject to any Taxes, such Taxes shall be borne and payable by the unit holders and/or the Fund (as the case may be) at the prevailing rate, including any increase or decrease to the rate, in addition to the fees, charges and/or expenses stated herein.

You are advised to consider the fees and charges involved before investing in the Fund. Unit prices and distributions, if any, may go down as well as up.

How will I be notified of any increase in fees and charges?

- A written communication will be sent to unit holders to notify of the higher rate and its effective date; and
- A supplementary or replacement prospectus will be registered and issued.

How often are valuations available?

We publish updated information on our website www.aminvest.com; and the NAV per unit of the Fund is sent to the Federation of Investment Managers Malaysia ("FIMM") in order for it to be published in major newspapers on a daily basis.
