(1) Total return is the actual return of the Fund for the respective financial years computed based on the net asset value per unit and net of all fees.				
(2) Total expense ratio ("TER") is calculated based on the total fees and expenses incurred by the Fund divided by the average fund size calculated on a daily basis. The TER increased by 0.01% as compared to 1.37% per annum for the financial year ended 31 July 2024 mainly due to decrease in average fund size.				
(3) Portfolio turnover ratio ("PTR") is calculated based on the average of the total acquisitions and total disposals of investment securities of the Fund divided by the average fund size calculated on a daily basis. The increase in the PTR for 2025 and 2024 were due mainly to investing activities.

BPAM Corporates Sukuk Index

The Fund performance is calculated based on net asset value per unit of the Fund. Average total return of the Fund and its benchmark for a period is computed based on the absolute return for that period annualised over one year.

**Note: Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.**

**Fund Performance****Class A**

For the financial year under review, the Fund registered a return of 5.24% comprising of 2.99% capital growth and 2.25% income distribution.

Thus, the Fund's return of 5.24% has underperformed the benchmark's return of 5.46% by 0.22%.

As compared with the financial year ended 31 July 2024, the net asset value ("NAV") per unit of the Fund increased by 2.86% from RM1.5400 to RM1.5841, while units in circulation increased by 17.85% from 4,526,594 units to 5,334,411 units.

The following line chart shows comparison between the annual performances of AmDynamic Sukuk – Class A and its benchmark for the financial years ended 31 July.

**Class B**

For the financial year under review, the Fund registered a return of 5.38% comprising of 2.93% capital growth and 2.45% income distribution.

Thus, the Fund's return of 5.38% has underperformed the benchmark's return of 5.46% by 0.08%.

As compared with the financial year ended 31 July 2024, the net asset value ("NAV") per unit of the Fund increased by 2.82% from RM1.4878 to RM1.5297, while units in circulation decreased by 97.95% from 1,773,096 units to 36,310 units.

The following line chart shows comparison between the annual performances of AmDynamic Sukuk – Class B and its benchmark for the financial years ended 31 July.

#### Strategies and Policies Employed

To achieve the investment objective, the Fund undertakes active management to enhance and optimize returns from investing in sovereign, quasi-sovereign and corporate sukuk. There is no minimum rating for a sukuk purchased or held by the Fund. This is to enable the Manager of the Fund to take a relatively high level of calculated credit risk for the Fund, justified by the relatively high level of expected return that could be generated by the Fund in return for taking the higher level of credit risk. In managing the Fund, the Manager may opt to invest in the investments either directly or via collective investment schemes.

In managing the Fund, the Manager of the Fund employs active tactical duration management; yield curve positioning and credit spread arbitrage. Credit spread arbitrage and yield curve positioning is part of relative value approach that involves analysis of general economic and market conditions and the use of models to analyze and compare expected returns as well as the assumed risks. The Manager will focus on sukuk that would deliver better returns to the Fund for a given level of risk. In addition, the Manager may also consider sukuk with favourable or improving credit outlook that provide the potential for capital appreciation for these investments. The Fund may invest in sukuk of varying maturities. The Fund's investment maturity profile is subject to active tactical duration management in view of the interest rate scenario without any portfolio maturity limitation.

The Fund invests in Malaysia and to a lesser extent, in eligible markets of other countries globally.

Portfolio Structure	The table below is the asset allocation of the Fund as at 31 July 2025 and 31 July 2024.			
		As at 31.07.2025 %	As at 31.07.2024 %	Changes %
	Corporate sukuk	79.80	74.75	5.05

	Money market deposits and cash equivalents	4.15	25.25	-21.10
	Total	100.00	100.00	
	As at end of financial year 31 July 2025, 79.80% of the Fund's NAV was invested in corporate sukuk, 16.05% was invested in government sukuk and 4.15% was invested in money market deposits and cash equivalents.			
Securities Lending / Repurchase Transactions	The Fund has not undertaken any securities lending or repurchase transactions (collectively referred to as "securities financing transactions").			
Cross Trade	There were no cross trades undertaken during the financial year under review.			
Distribution/ Unit splits	During the financial year under review, the Fund declared income distribution, detailed as follows:			
	Class A			
	Date of distribution	Distribution per unit RM (sen)	NAV per unit Cum-Distribution (RM)	NAV per unit Ex-Distribution (RM)
	19-Sep-24	3.4591	1.5501	1.5155
	Class B			
	Date of distribution	Distribution per unit RM (sen)	NAV per unit Cum-Distribution (RM)	NAV per unit Ex-Distribution (RM)
19-Sep-24	3.6410	1.4976	1.4612	
There is no unit split declared for the financial year under review.				
State of Affairs	There has been neither significant changes to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unitholders during the financial year under review.			
Rebates and Soft Commission	During the year, the management company did not receive soft commissions by virtue of transactions conducted for the Fund.			
Market Review	The Malaysian bond market experienced significant volatility in 2024, closing tracking global economic conditions and United States (US) Federal Reserve (Fed) policy shifts. Despite the volatility, the Malaysian bond market has ended the year with Malaysian Government Securities (MGS) yields rose 1-4 bps on the belly of the curve while the ultra-long end 20Y-30Y MGS declined by 4-6 bps over the year, except for 10Y MGS which rose 11 bps.			

	<p>For the month of August, domestic bond market generally weakened amid profit taking in despite United States Treasury (UST) continued to rally amid heightened expectation of imminent rate cut by US Fed at its upcoming meeting in September. When the US Fed announced a 50 bps cut (first reduction since March 2020) in September, a broad rally occurred in global bonds. However, sentiment weakened again in October as uncertainties surrounding the US Presidential Election and prospect of a slower rate cut by the US Fed pushed yields higher.</p> <p>In November, the Malaysian bond market rallied, driven by bullish sentiment in the UST following the US Presidential Election. The Republican victory heightened inflation fears and dampened expectations of Fed rate cuts, leading to a sell-off in UST post-election. However, this was partially reversed later in the month. Locally, sentiment was further supported by the Bank Negara Malaysia's (BNM) announcement to cancel the 3-year Government Investment Issues (GII). December ended on a softer note with profit-taking and bearish global bond backdrop, driven by the US Fed's more hawkish policy guidance and higher-than-expected inflation expectations and partly contributed by lack of liquidity in second half of December. This is despite positive news from BNM's announcement of a smaller-than-expected final government bond auction for the year provided some support.</p> <p>Ringgit government bonds started the year 2025 slightly stronger with decent bids as market participants began to build up inventories. Meanwhile, the lower-than-expected inflation prints in the US fueled a relief rally in UST but local bond market remained largely stable. Despite volatility in the UST market, the local bond market remained calm and supportive, buoyed by less hawkish pricing of UST and better regional sentiment from the continued pause in Trump tariffs. Towards end of 1Q 2025, growing concerns over tariffs, higher inflation expectation and slowing economic growth in US prompted investor to seek refuge in safer assets, causing UST yield curve to steepen while local bond market rallied, supported by strong domestic liquidity. The government securities continued to rally across all tenures in April 2025, reflecting market pricing of a potential 25 bps rate cut in 2025, following the lower-than-consensus first quarter Gross Domestic Production (GDP) reading for Malaysia.</p> <p>From April to July 2025, Malaysia's bond market maintained bullish momentum, driven by dovish policy signals from BNM, including a 100 bps cut to the statutory reserve requirement in May and a 25 bps reduction in the Overnight Policy Rate (OPR) in July. These moves, coupled with record-high net foreign inflows of RM13.5 billion in May, bolstered investor confidence in ringgit-denominated bonds. Despite global headwinds such as UST volatility and a weak US Dollar (USD), the market showed resilience in June and continued to strengthen in July, with the MGS yield curve bull-flattening amid cautious optimism and a stable domestic growth outlook.</p>
<b>Market Outlook</b>	<p>The macro environment is expected to remain supportive of bonds, especially as inflation stays contained and policy turns more accommodative. Downside risks include further global slowdown, geopolitical tensions, and unexpected volatility in commodity prices. Domestic demand will continue to anchor growth, supported by fiscal spending and targeted cash assistance measures under the 13<sup>th</sup> Malaysia Plan.</p>

## **Independent auditors' report to the unit holders of AmDynamic Sukuk**

### **Report on the audit of the financial statements**

#### *Opinion*

We have audited the financial statements of AmDynamic Sukuk (the "Fund"), which comprise the statement of financial position as at 31 July 2025, and statement of comprehensive income, statement of changes in net assets attributable to unit holders and statement of cash flows of the Fund for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 13 to 42.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 31 July 2025, and of its financial performance and cash flows for the financial year then ended in accordance with MFRS Accounting Standards and IFRS Accounting Standards.

#### *Basis for opinion*

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Independence and other ethical responsibilities*

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

#### *Information other than the financial statements and auditors' report thereon*

The Manager of the Fund (the "Manager") is responsible for the other information. The other information comprises the information included in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

**Independent auditors' report to the unit holders of  
AmDynamic Sukuk (cont'd.)**

*Information other than the financial statements and auditors' report thereon (cont'd.)*

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

*Responsibilities of the Manager and the Trustee for the financial statements*

The Manager is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with MFRS Accounting Standards and IFRS Accounting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

*Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**Independent auditors' report to the unit holders of  
AmDynamic Sukuk (cont'd.)**

*Auditors' responsibilities for the audit of the financial statements (cont'd.)*

As part of an audit in accordance with the approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Independent auditors' report to the unit holders of  
AmDynamic Sukuk (cont'd.)**

**Other matters**

This report is made solely to the unit holders of the Fund, as a body, in accordance with the Guidelines on Unit Trust Funds issued by the Securities Commission Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025

#### 1. GENERAL INFORMATION

AmDynamic Sukuk (the "Fund") was established pursuant to a Deed dated 20 May 2011 as amended by Deeds supplemental thereto (the "Deeds"), between AmFunds Management Berhad as the Manager, Deutsche Trustees Malaysia Berhad as the Trustee and all unit holders.

The Fund aims to provide capital appreciation by investing primarily in sukuk both locally and globally. As provided in the Deeds, the financial year shall end on 31 July and the units in the Fund for Class A and Class B were first offered for sale on 12 June 2012 and 16 July 2014 respectively.

The financial statements were authorised for issue by the Manager on 24 September 2025.

#### 2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Fund have been prepared on a historical cost basis, except as otherwise stated in the accounting policies and comply with Malaysian Financial Reporting Standards ("MFRS") as issued by the Malaysian Accounting Standards Board ("MASB") and International Financial Reporting Standards ("IFRS").

##### Standards effective during the financial year

The adoption of the following MFRS and amendments to MFRS which became effective during the financial year did not have any material financial impact to the financial statements.

Description	Effective for financial periods beginning on or after
Amendments to MFRS 16 <i>Leases: Lease Liability in a Sale and Leaseback*</i>	1 January 2024
Amendments to MFRS 101 <i>Presentation of Financial Statements: Non-Current Liabilities with Covenants</i>	1 January 2024
Amendments to MFRS 107 <i>Statement of Cash Flows</i> and MFRS 7 <i>Financial Instruments: Disclosures: Supplier Finance Arrangements</i>	1 January 2024

##### Standards issued but not yet effective

The new and amended standards that have been issued but not yet effective up to the date of issuance of the Fund's financial statements are disclosed below. The Fund intends to adopt these new pronouncements, if applicable, when they become effective.

\* These MFRS and Amendments to MFRSs are not relevant to the Fund.

**3. SUMMARY OF ACCOUNTING POLICIES**

**3.1 Income recognition**

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

(i) Profit income

For all profit-bearing financial assets, profit income is calculated using the effective profit method. Effective profit rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. The calculation takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective profit rate, but not future credit losses.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 JULY 2025**

**3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)**

**3.1 Income recognition (cont'd.)**

(i) Profit income (cont'd.)

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, profit income continues to be recognised using the rate of return used to discount the future cash flows for the purpose of measuring the impairment loss.

(ii) Gain or loss on disposal of Shariah-compliant investments

On disposal of Shariah-compliant investments, the net realised gain or loss on disposal is measured as the difference between the net disposal proceeds and the carrying amount of the Shariah-compliant investments. The net realised gain or loss is recognised in profit or loss.

**3.2 Income tax**

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

**3.3 Functional and presentation currency**

Functional currency is the currency of the primary economic environment in which the Fund operates that most faithfully represents the economic effects of the underlying transactions. The functional currency of the Fund is Ringgit Malaysia ("RM") which reflects the currency in which the Fund competes for funds, issues and redeems units. The Fund has also adopted RM as its presentation currency.

**3.4 Statement of cash flows**

The Fund adopts the direct method in the preparation of the statement of cash flows.

Cash and cash equivalents are short-term, highly liquid Shariah-compliant investments that are readily convertible to cash with insignificant risk of changes in value.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 JULY 2025**

**3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)**

**3.5 Distribution**

Distribution is at the discretion of the Manager. A distribution to the Fund's unit holders is accounted for as a deduction from realised income and recognised in the statement of comprehensive income, as the unit holders' contribution are classified as financial liability as per Note 3.6. Realised income is the income earned from profit income and net gain on disposal of Shariah-compliant investments after deducting expenses and taxation. A proposed distribution is recognised as a liability in the period in which it is approved. Distribution is either reinvested or paid in cash to the unit holders on the distribution payment date. Reinvestment of units is based on the NAV per unit on the distribution payment date, which is also the time of creation.

**3.6 Unit holders' contribution**

The unit holders' contribution of the Fund is classified as liabilities under the requirements of MFRS 132 *Financial Instruments: Presentation* ("MFRS 132").

Under MFRS 132, a unit trust fund with one common class of unit holders is classified as equity as it meets the requirement of having identical features. In a multi-unit class fund, if any one class (or a group of classes) can be differentiated in terms of their features, then all the classes will be classified as liabilities.

The Fund issues cancellable units in two classes. Details are disclosed in Note 10.

**3.7 Financial instruments – initial recognition and measurement**

**(i) Initial recognition**

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised using trade date accounting or settlement date accounting. The method used is applied consistently for all purchases and sales of financial assets that belong to the same category of financial assets.

**(ii) Initial measurement**

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at FVTPL, transaction costs that are attributable to the acquisition of the financial assets. All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not recorded at FVTPL, net of directly attributable transaction costs.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 JULY 2025**

**3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)**

**3.7 Financial instruments – initial recognition and measurement (cont'd.)**

(iii) “Day 1” profit or loss

At initial measurement, if the transaction price differs from the fair value, the Fund immediately recognises the difference between the transaction price and fair value (a “Day 1” profit or loss) in profit or loss provided that fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. Level 1 input) or based on a valuation technique that uses only data from observable markets. In all other cases, the difference between the transaction price and model value is recognised in profit or loss on a systematic and rational basis that reflects the nature of the instrument over its tenure.

**3.8 Financial assets**

*Classification and measurement*

The classification of financial assets depends on the Fund’s business model of managing the financial assets in order to generate cash flows (“business model test”) and the contractual cash flow characteristics of the financial instruments (“SPPP test”). The business model test determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both and the assessment is performed on a portfolio basis. The SPPP test determines whether the contractual cash flows are solely for payments of principal and profit and the assessment is performed on a financial instrument basis.

*Business model*

The business model reflects how the Fund manages the financial assets in order to generate cash flows. That is, whether the Fund’s objective is solely to collect the contractual cash flows from the assets, or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. the financial assets are held for trading purposes), then the financial assets are classified as part of “other” business model. Factors considered by the Fund in determining the business model for a portfolio of assets include past experience on how the cash flows for these assets were collected, how the asset’s performance is evaluated and reported to key management personnel, and how risks are assessed and managed.

*Cash flow characteristics*

Where the business model is to hold the financial assets to collect contractual cash flows, or to collect contractual cash flows and sell, the Fund assesses whether the financial assets’ contractual cash flows represent solely payment of principal and profit (“SPPP”). In making this assessment, the Fund considers whether the contractual cash flows are consistent with a basic financing arrangement, i.e. profit includes only consideration for time value of money, credit risk, other basic financing risks and a profit margin that is consistent with a basic financing arrangement. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are SPPP.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 JULY 2025**

**3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)**

**3.8 Financial assets (cont'd.)**

Classification and measurement (cont'd.)

The Fund may classify its financial assets under the following categories:

*Financial assets at amortised cost*

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding. Financial assets include in this category are Shariah-compliant deposits with licensed financial institutions, cash at banks, amount due from Target Fund Manager, amount due from Manager, amount due from brokers/financial institutions, dividend/distribution receivables and other receivables.

*Financial assets at FVOCI*

A financial asset is measured at fair value through other comprehensive income ("FVOCI") if its business model is both to hold the asset to collect contractual cash flows and to sell the financial assets. In addition, the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and profit on the outstanding principal.

These Shariah-compliant investments are initially recorded at fair value and transaction costs are expensed in the profit or loss. Subsequent to initial recognition, these Shariah-compliant investments are remeasured at fair value. All fair value adjustments are initially recognised through OCI. Debt instruments at FVOCI are subject to impairment assessment.

*Financial assets at FVTPL*

Any financial assets that are not measured at amortised cost or FVOCI are measured at FVTPL. Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of those financial instruments are recorded in "Net gain or loss on financial assets at FVTPL". Profit earned element of such instrument is recorded in "Profit income".

Instruments that qualify for amortised cost or FVOCI may be irrevocably designated as FVTPL, if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Equity instruments are normally measured at FVTPL, nevertheless, the Fund is allowed to irrevocably designate equity instruments that are not held for trading as FVOCI, with no subsequent reclassification of gains or losses to profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 JULY 2025**

**3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)**

**3.9 Financial liabilities – classification and subsequent measurement**

Financial liabilities issued by the Fund are classified as financial liabilities at amortised cost, where the substance of the contractual arrangement results in the Fund having an obligation either to deliver cash or another financial asset to the holders. After initial measurement, financial liabilities are subsequently measured at amortised cost using the effective profit method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective profit rate.

**3.10 Derecognition of financial instruments**

**(i) Derecognition of financial asset**

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired, or
- the Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement; and either:
  - the Fund has transferred substantially all the risks and rewards of the asset, or
  - the Fund has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

For Shariah-compliant investments classified as FVOCI - debt instruments, the cumulative fair value change recognised in OCI is recycled to profit or loss.

**(ii) Derecognition of financial liability**

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Gains and losses are recognised in profit or loss when the liabilities are recognised, and through the amortisation process.

**3.11 Financial instruments – expected credit losses (“ECL”)**

The Fund assesses the ECL associated with its financial assets at amortised cost using simplified approach. Therefore, the Fund does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The ECL in respect of financial assets at amortised cost, if any, is recognised in profit or loss.

Financial assets together with the associated allowance are written off when it has exhausted all practical recovery efforts and there is no realistic prospect of future recovery. The Fund may also write-off financial assets that are still subject to enforcement activity when there is no reasonable expectation of full recovery. If a write-off is later recovered, the recovery is credited to profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 JULY 2025**

**3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)**

**3.12 Determination of fair value**

For Shariah-compliant investments in local fixed income securities, nominal value is the face value of the securities and fair value is determined based on the indicative prices from Bond Pricing Agency Malaysia Sdn. Bhd. plus accrued profit, which includes the accretion of discount and amortisation of premium. Adjusted cost of Shariah-compliant investments relates to the purchased cost plus accrued profit, adjusted for amortisation of premium and accretion of discount, if any, calculated over the period from the date of acquisition to the date of maturity of the respective securities as approved by the Manager and the Trustee. The difference between adjusted cost and fair value is treated as unrealised gain or loss and is recognised in profit or loss.

**3.13 Classification of realised and unrealised gains and losses**

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposals of financial instruments classified at FVTPL are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

**3.14 Significant accounting estimates and judgments**

The preparation of the Fund's financial statements requires the Manager to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

The Fund classifies its Shariah-compliant investments as financial assets at FVTPL as the Fund may sell its Shariah-compliant investments in the short-term for profit-taking or to meet unit holders' cancellation of units.

No major judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

**(b) Financial instruments that are carried at fair value**

The Fund's financial assets and liabilities are carried at fair value.

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable; either directly or indirectly; or
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 JULY 2025**

**18. FINANCIAL INSTRUMENTS (CONT'D.)**

**(b) Financial instruments that are carried at fair value (cont'd.)**

The following table shows an analysis of financial instruments recorded at fair value by the level of the fair value hierarchy:

	<b>Level 1 RM</b>	<b>Level 2 RM</b>	<b>Level 3 RM</b>	<b>Total RM</b>
<b>2025</b>

**(c) Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value**

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value due to their short period to maturity or short credit period:

- Shariah-compliant deposit with licensed financial institution
- Amount due from/to Manager
- Amount due from broker
- Other receivables
- Cash at bank
- Amount due to Trustee

There are no financial instruments which are not carried at fair value and whose carrying amounts are not reasonable approximation of their respective fair value.

**19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The Fund is exposed to a variety of risks that include market risk, credit risk, liquidity risk, single issuer risk, regulatory risk, management risk, non-compliance risk and Shariah non-compliance risk.

Risk management is carried out by closely monitoring, measuring and mitigating the above said risks, careful selection of Shariah-compliant investments coupled with stringent compliance to Shariah-compliant investment restrictions as stipulated by the Capital Markets and Services Act 2007, Securities Commission Malaysia's Guidelines on Unit Trust Funds, Securities Commission Malaysia's Guidelines on Islamic Capital Market Products and Services, and the Deeds as the backbone of risk management of the Fund.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 JULY 2025**

**19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)**

**(a) Market risk**

The Fund's principal exposure to market risk arises primarily due to changes in the market environment, global economic and geo-political developments.

The Fund's market risk is affected primarily by the following risks:

**(i) Rate of return risk**

Rate of return risk will affect the value of the Fund's Shariah-compliant investments, given the rate of return movements, which are influenced by regional and local economic developments as well as political developments.

Domestic profit rates on deposits and placements with licensed financial institutions are determined based on prevailing market rates.

The result below summarised the rate of return sensitivity of the Fund's NAV, or theoretical value due to the parallel movement assumption of the yield curve by +100bps and -100bps respectively:

Parallel shift in yield curve by:	Sensitivity of the Fund's NAV, or theoretical value	
	2025 RM	2024 RM
+100 bps	(439,758)	(388,171)
-100 bps	470,555	427,044

**(b) Credit risk**

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge an obligation. The Fund can invest up to 100% of its NAV in Shariah-compliant fixed income instruments and Islamic money market instruments. As such the Fund would be exposed to the risk of sukuk issuers and licensed financial institutions defaulting on its repayment obligations which in turn would affect the NAV of the Fund.

	<u>7,182,506</u>	<u>100.00</u>	<u>74.75</u>

**(c) Liquidity risk**

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its units earlier than expected. This is also the risk of the Fund experiencing large redemptions, when the Investment Manager could be forced to sell large volumes of its holdings at unfavorable prices to meet redemption requirements.

The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by unit holders. Liquid assets comprise of cash at banks, Shariah-compliant deposits with licensed financial institutions and other instruments, which are capable of being converted into cash within 5 to 7 days. The Fund's policy is to always maintain a prudent level of liquid assets so as to reduce liquidity risk.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 JULY 2025**

**19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)**

**(d) Single issuer risk**

Internal policy restricts the Fund from investing in securities issued by any issuer of not more than a certain percentage of its NAV. Under such restriction, the risk exposure to the securities of any single issuer is diversified and managed based on internal/external ratings.

**(e) Regulatory risk**

Any changes in national policies and regulations may have effects on the capital market and the NAV of the Fund.

**(f) Management risk**

Poor management of the Fund may cause considerable losses to the Fund that in turn may affect the NAV of the Fund.

**(g) Non-compliance risk**

This is the risk of the Manager or the Trustee not complying with the respective internal policies, the Deeds, securities laws or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the Fund.

**(h) Shariah non-compliance risk**

This is the risk of the Fund not conforming to Shariah Investment Guidelines. The Shariah Adviser for the Fund would be responsible for ensuring that the Fund is managed and administered in accordance with Shariah Investment Guidelines. Note that as the Fund can only invest in Shariah-compliant instruments, non-compliance may adversely affect the NAV of the Fund when the rectification of non-compliance results in losses.

**20. CAPITAL MANAGEMENT**

The capital of the Fund can vary depending on the demand for creation and cancellation of units to the Fund.

The Fund's objectives for managing capital are:

- (a) To invest in Shariah-compliant investments meeting the description, risk exposure and expected return indicated in its Prospectus;
- (b) To maintain sufficient liquidity to meet the expenses of the Fund, and to meet cancellation requests as they arise; and
- (c) To maintain sufficient fund size to make the operations of the Fund cost-efficient.

No changes were made to the capital management objectives, policies or processes during the current and previous financial years.
