What are the key risks associated with the Fund?

General risks associated with investing in a wholesale fund

| | |
|---------------------|---|
| Market Risk | Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's net asset value. |
| Inflation Risk | This is the risk that sophisticated investors' investment in the fund may not grow or generate income at a rate that keeps pace with inflation. |
| Manager's Risk | This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund. |
| Non-Compliance Risk | This is the risk of the manager or the trustee not complying with their respective internal policies, the deed and its supplemental deed, securities law or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the fund when the manager or the trustee takes action to rectify the non-compliance. |
| Loan Financing Risk | This risk occurs when investors take a loan / financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the repayments. |
| Country Risk | Investments of the fund in any country may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the fund invests in. |
| Suspension Risk | Refers to situation where the Manager suspends dealings of units in the fund (no redemption or subscription are allowed) under exceptional circumstances as set out in Information Memorandum. Suspension of the fund may potentially result in unit holders not being able to redeem their units into cash based on their liquidity needs and continue to be subject to the risk factors inherent in the fund. |

Specific risks associated with the investment portfolio of the Fund

| | |
|---|---|
| Risk of a Passive Strategy | As the Fund adopts a passive strategy of investing a minimum of 85% of its NAV into the Target Fund at all times, this strategy would result in the Fund being exposed to the risk of its NAV declining when the Target Fund's net asset value declines. |
| Risk of Not Meeting the Fund's Investment Objective | This is the risk that the Fund may deviate from the intended investment objective. |
| Currency Risk | As the Fund offers multiple currency Classes, certain Class(es) would be exposed to currency risk. This is the risk associated with investments in certain Class(es) of the Fund which is denominated in currency different from the base currency of the Fund. When the base currency of the Fund depreciates against the denomination currency of certain Class(es), the Class(es) will suffer currency losses. This is in addition to any gains or losses derived from the Fund's investment in the Target Fund. |
| Distribution Risk | It should be noted that the distribution of income is not guaranteed. |
| Redemption Risk | The ability of the Fund to honour requests for redemption in a timely manner is subject to any deferral of redemptions from the Target Fund, the Fund's holding of adequate liquid assets and/or the Fund's ability to seek borrowings on a temporary basis as permitted by the relevant laws to meet redemption requests. In the event there are insufficient liquid assets, the Manager may have to liquidate the Fund's investments at an unfavourable price. |
| Liquidity Risk | The Fund will be investing a minimum of 85% of its assets in the Target Fund. There may be exceptional circumstances, which could cause delays in the redemption of shares of the Target Fund and units of the Fund. In the event of exceptional circumstances such as suspension of calculation of net asset value of the Target Fund, no shares of the Target Fund will be redeemed. |
| Taxation Risk / Withholding Tax Risk | This is the risk that the proceeds from the sale of securities and/or the receipt of income may be subject to tax, levies, duties or other charges imposed by the authorities in Luxembourg. Tax law and practice in Luxembourg may not be clearly established. It is therefore possible that the current interpretation of the law or understanding of practice might change or that the law might be changed with retrospective effect and this may be detrimental to the Fund. |
