- You should not invest in the Fund if you do not understand it or are not comfortable with the accompanying risks.

What is the Fund about?

AmGlobal Multi Asset is a wholesale mixed assets fund issued by AmFunds Management Berhad (the "Manager") which seeks to achieve capital appreciation and less on income distribution through a flexible allocation in global equities and global fixed income instruments.

Who is the Fund suitable for?

The Fund is suitable for Sophisticated Investors who:

- seek capital appreciation and less on income distribution;
- have a long-term* investment horizon; and
- wish to seek global investment exposure.

*Note: *Long term means the investment horizon should at least be five (5) years.*

What am I investing in?

Fund Category	Mixed assets.
Fund Type	Income and Growth.
Investment Objective	The Fund seeks to achieve capital appreciation and less on income distribution through a flexible allocation in global equities and global fixed income instruments. <i>Note: Any material change to the investment objective of the Fund would require unit holders' approval.</i>
<i>Note: Any material change to the investment objective of the Fund would require unit holders' approval.</i>	
Investment Strategy	<p>The Fund seeks to achieve its investment objective by investing 0% to 100% in a diversified portfolio of global assets, including equities, fixed income, and other asset classes. The aggregate value of money market instruments and deposits must not exceed 30% of the Fund's NAV. The Fund will have the flexibility to invest in a diversified range of instruments such as equities, equity-related securities, debt securities and fixed income instruments listed or unlisted in the eligible markets.</p> <p>The Fund's investment strategy is unconstrained by market capitalisation, country and sector to maximise potential growth. The Fund will focus on companies that are able to provide growth opportunities and investment in fixed income instruments which provide stability.</p> <p>As a result, a combination of top-down and bottom-up strategies will be adopted when identifying investment opportunities. Macro factors like the economics, earnings, valuation, behavioural and geopolitics factors are closely monitored while focusing on quality companies with good fundamental to provide growth potential to the investment portfolio. Investments in fixed income instruments will take into consideration the economic and credit environment, interest rate outlook, credit spread, monetary policy and yield.</p>
Asset Allocation	<p>Equities and equity-related securities : 0% - 100%</p> <p>Fixed income instruments : 0% - 100%</p> <p>Money market instruments and deposits : 0% - 30%</p>
Base Currency of the Fund	US Dollar (USD).
Benchmark	Nil. The Fund does not have a specific benchmark.
Launch Date	<p>RM Class : 5 June 2025</p> <p>RM-Hedged Class : 30 January 2026</p> <p>USD Class : 30 January 2026</p>
Initial Offer Period	<p>RM Class : N/A</p> <p>RM-Hedged Class : One (1) day which is on the launch date.</p> <p>USD Class : One (1) day which is on the launch date.</p>
Initial Offer Price	<p>RM Class : RM1.0000</p> <p>RM-Hedged Class : RM1.0000</p> <p>USD Class : USD1.0000</p>
Distribution Policy	<p>Subject to availability of income, distribution will be paid once a year.</p> <p>At the Manager's discretion, the Fund may distribute from its gain, income and capital. The rationale for distribution out of capital is to allow the Fund the ability to (i) distribute income on a regular basis in accordance with the distribution policy of the Fund or (ii) increase the amount of distributable income to the Unit Holders, after taking into consideration the risk of distributing out of capital.</p> <p>Distribution out of the Fund's capital has the effect of lowering the NAV of the Fund, may reduce part of the Unit Holders' original investment and may also result in reduced future returns to Unit Holders. When a substantial</p>

	<p>amount of the original investment is being returned to the Unit Holders, it has a risk of eroding the capital of the Fund and may, over time, cause the NAV of the Fund to fall. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished</p> <p><i>Note: Distribution amount (if any) for each of the Classes could be different subject to the sole discretion of the Manager.</i></p>

Who am I investing with?

Manager	: AmFunds Management Berhad ("AFM")
Trustee	: Deutsche Trustees Malaysia Berhad
Trustee's Delegate (Custodian)	: Deutsche Bank (Malaysia) Berhad

The Manager has established policies and guidelines to identify, manage, and mitigate situations that may give rise to actual or potential conflicts of interest.

The Fund may engage in transactions with related parties related to the Manager. The related parties defined are AmIslamic Funds Management Sdn. Bhd., AmlInvestment Bank Berhad, AmlInvestment Group Berhad, AmBank (M) Berhad and AmBank Islamic Berhad.

Such transactions may involve:

- dealings on sale and purchase of investment securities and instruments by the Fund.
- money market deposits and placements by the Fund.
- holding of units in the funds by related parties.

All related party transactions are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.

The Manager may conduct cross trades between funds and private mandates it currently manages provided that all criteria imposed by the regulators are met. Notwithstanding, cross trades between the personal account of an employee of the Manager and the fund's account are strictly prohibited. The execution of cross trade (if any) will be reported to the person(s) or members of the committee undertaking an oversight function of the Fund and disclosed in the fund's report accordingly.

What are the possible outcomes of my investment?

Best Case	Capital appreciation and income distribution.
Mid Case	No significant change in investment i.e. no capital appreciation and no income distribution.
Worst Case	Capital loss and no income distribution.

What are the key risks associated with the Fund?

General risks associated with investing in a wholesale fund

Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's net asset value.
Inflation Risk	This is the risk that Sophisticated Investors' investment in the fund may not grow or generate income at a rate that keeps pace with inflation.
Manager's Risk	This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund.
Non-Compliance Risk	This is the risk of the manager or the trustee not complying with their respective internal policies, the deed and its supplemental deed, securities law or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the fund.
Loan Financing Risk	This risk occurs when investors take a loan / financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the repayments.
Country Risk	Investments of the fund in any country may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the fund invests in.
Suspension Risk	Refers to situation where the Manager suspends dealings of units in the fund (no redemption or subscription are allowed) under exceptional circumstances as set out in Information Memorandum. Suspension of the fund may potentially result in unit holders not being able to redeem their units into cash based on their liquidity needs and continue to be subject to the risk factors inherent in the fund.

Specific risks associated with the Fund

Stock Specific Risk	Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.
Risk Associated with Investments in Equity-Related Securities	The Fund may invest in equity-related securities such as warrants that are capable of being converted into shares. As warrants are linked to the particular equity securities from which they are derived, the warrants inherit the risks linked to that underlying equity securities such as market risk, currency risk, country risk, industry risk, and liquidity risk.
Concentration Risk	This is the risk that the Fund may be overly concentrated in a few countries, industries or segment of economy. As such, developments affecting any of those countries, industries or segment of economy may affect the NAV of the Fund more adversely as compared to other funds which is more diversified across. This risk may be mitigated by diversifying the investment across the regions, industries and different segments of economy.
Interest Rate Risk	Interest rate risk refers to the impact of interest rate changes on the valuation of fixed income instruments. When interest rates rise, fixed income instruments prices generally decline and this may lower the market value of the Fund's investment in fixed income instruments. The reverse may apply when interest rates fall.
Distribution Risk	The distribution of income is not guaranteed.

Liquidity Risk	Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.
Counterparty Credit Risk	Counterparty credit risk is the risk arising from the possibility that the counterparty may default or not able to fulfil a trade settlement prior or on the settlement date of the trade. This could adversely affect the value of the Fund.
Credit and Default Risk	Credit risk relates to the creditworthiness of the issuers of the fixed income instruments or money market instruments and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the fixed income instruments or money market instruments.
Currency Risk	As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa.

Note: The abovementioned risks which Sophisticated Investors should consider before investing into the Fund should not be considered to be an exhaustive list. Sophisticated Investors should be aware that investments in the Fund may be exposed to other unforeseeable risks from time to time. Sophisticated Investors are advised to consult their professional adviser. Please refer to the Information Memorandum under "Risk Factors" for further details on risks.

Please note that if you invest in units through a distributor via a nominee system of ownership, you will not be deemed a unit holder under the deed of the Fund.

What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before investing in the Fund.

What will I be charged by AFM?

Note: Unless stated otherwise, all fees, charges and/or expenses disclosed in the Product Highlights Sheet are exclusive by way of example and not limitation; goods and services tax, value added tax, consumption tax, levies, duties and other taxes as may be imposed by the Government of Malaysia from time to time (collectively known as "Taxes"). If these fees, charges and/or expenses are subject to any Taxes, such Taxes shall be borne and payable by the unit holders and/or the Fund (as the case may be) at the prevailing rate, including any increase or decrease to the rate, in addition to the fees, charges and/or expenses stated herein.

Sophisticated Investors are advised to consider the fees and charges involved before investing in the Fund. Unit prices and distributions, if any, may go down as well as up.

How will I be notified of any increase in fees and charges?

- A written communication will be sent to unit holders to notify of the higher rate and its effective date; and
- A supplementary or replacement information memorandum will be issued.

How often are valuations available?

We publish updated information on our website www.aminvest.com; and the NAV per unit of the Fund is sent to the Federation of Investment Managers Malaysia ("FIMM") in order for it to be published in major newspapers on a daily basis.
