The Fund has been certified as being Shariah-compliant by the Shariah adviser appointed for the Fund.

PRODUCT HIGHLIGHTS SHEET

This Product Highlights Sheet is an important document:

- **It is a summary of the salient information about the Fund.**
- **You MUST NOT invest in the Fund based on this Product Highlights Sheet alone.** Please read the Prospectus before deciding to make an investment. If you do not have a copy, please contact us to ask for one.
- You should not invest in the Fund if you do not understand it or are not comfortable with the accompanying risks.

What is the Fund about?

AmlIslamic Fixed Income Conservative is a Sukuk fund issued by AmFunds Management Berhad (the "Manager") that aims to provide capital appreciation over the short to medium-term** by investing in a portfolio consisting of fixed income instruments that comply with Shariah Principles.

Who is the Fund suitable for?

The Fund is suitable for investors:

- seeking to preserve their capital*; and
- seeking an investment with short to medium-term** investment horizon.

Notes:

* Capital preservation does not mean that the capital is guaranteed or protected.

** Short to medium-term refers to an investment horizon of one (1) to three (3) years.

What am I investing in?

Fund Category	Sukuk
Fund Type	Growth
Investment Objective	<p>The Fund aims to provide capital appreciation over the short to medium-term by investing in a portfolio consisting of fixed income instruments that comply with Shariah Principles.</p> <p><i>Note: Any material change to the investment objective of the Fund would require unit holders' approval.</i></p>
Investment Strategy	<p>The Fund seeks to achieve its objective by investing a minimum 70% of its net asset value ("NAV") in Sukuk, while maintaining a weighted average portfolio duration of one (1) to three (3) years and carry a minimum long-term credit rating of A3 by RAM Rating Services Berhad ("RAM") or its equivalent as rated by a local or global rating agency.</p> <p>The Fund will place maximum 30% of its NAV in Islamic deposits and/or Islamic money market instruments. The Fund may invest in Islamic deposits or Islamic money market instruments with a maturity of up to one (1) year. The Fund's investments in Islamic money market instruments must have a minimum short-term credit rating of P3 by RAM or its equivalent as rated by a local or global rating agency.</p> <p>Under normal circumstances, the Fund's investments will maintain a weighted average portfolio duration of one (1) to three (3) years. However, in the event of unforeseeable circumstances such as a default, restructuring or a prolonged recovery process, the Fund may hold Sukuk and Islamic money market instruments that:</p> <ul style="list-style-type: none"> (i) have credit ratings lower than the minimum rating requirements; and/or (ii) result in the Fund's weighted average portfolio duration to exceed three (3) years. <p>In the event of a credit downgrade of a Sukuk or Islamic money market instrument below the minimum rating requirement and/or where the Investment Manager, at its discretion, assesses a likelihood of credit default, the Investment Manager may liquidate the affected Sukuk or Islamic money market instrument. If the Investment Manager decides to sell the Sukuk or Islamic money market instrument before its maturity, it may result in capital losses, which will be borne by the Fund and reflected in its NAV.</p> <p>It is important to note that a credit downgrade indicates an increased credit risk but does not necessarily imply a default will occur. In general, a downgrade will not impact the value of the Sukuk or Islamic money market instrument at maturity, provided no credit default takes place.</p> <p>The Investment Manager may opt to invest in the Shariah-compliant investments either directly or via Islamic collective investment schemes ("CIS"). The Investment Manager will also:</p> <ul style="list-style-type: none"> • analyse the general economic and market conditions; • focus on Sukuk that would deliver better returns for a given level of risk; • consider Sukuk with a more favorable or improving credit or industry outlook that provide potential for capital appreciation; and • manage the portfolio by taking into account the coupon rate and time to maturity of the Sukuk. <p>The Fund may invest in foreign eligible markets.</p> <p>The Fund is actively managed. However, the frequency of its trading strategy will depend on investment opportunities.</p>

	<p>The word "Conservative" is used in the Fund's name as it would potentially provide capital preservation* due to the following reasons:</p> <ul style="list-style-type: none"> (i) it invests in Shariah-compliant instruments which are rated above investment grade hence lower default risk; and (ii) its Shariah-compliant investments are confined to a duration of one (1) to three (3) years hence lower interest rate risk. <p><i>Note: * Capital preservation does not mean that the capital is guaranteed or protected.</i></p>
Asset Allocation	<ul style="list-style-type: none"> • At least 70% of the Fund's NAV will be invested in short to medium-term Sukuk; and • Up to 30% of the Fund's NAV will be invested in Shariah-compliant deposits and/or Islamic money market instruments.
Base Currency	Ringgit Malaysia (RM)
Performance Benchmark	<p>Maybank 12-month General Investment Account rate-i. (obtainable from: www.aminvest.com)</p> <p><i>Note: The risk profile of the Fund's investment is higher than the risk profile of the performance benchmark and consequently, the Fund is expected to outperform the performance benchmark.</i></p>
Launch Date	9 January 2012
Income Distribution	Income distribution (if any) is incidental and will be reinvested.

Shariah Investment Principles applicable to the Fund

The Fund shall invest in Sukuk and money market instruments that are deemed as Shariah-compliant by Amanie Advisors Sdn Bhd (the "Shariah Adviser").

The Fund will comprise of Sukuk and money market instruments that are approved as Shariah-compliant by the Securities Commission (the "SC") or any prevailing Shariah authority in Malaysia. In the event of the Investment Manager invests in Shariah non-compliant instruments, these instruments will be required to be disposed off immediately according to the ruling of the Shariah Adviser.

Please take note that the Manager will provide the Shariah Adviser on a quarterly basis the reports on the holding of the Fund and transactions entered into for the Fund.

What are the possible outcomes of my investment?

Best Case	Capital appreciation and income distribution.
Mid Case	No significant change in investment i.e. no capital appreciation and no income distribution.
Worst Case	Capital loss and with no income distribution.

What are the key risks associated with the Fund?

General risks associated with investing in a unit trust fund

Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors resulting in a decline in a fund's NAV.
Inflation Risk	This is the risk that investors' investment in a fund may not grow or generate income at a rate that keeps pace with inflation.
Manager's Risk	This risk refers to the day-to-day management of a fund by the manager which will impact the performance of a fund.
Non-Compliance Risk	This is the risk of the manager, the investment manager or the trustee not complying with their respective internal policies, the deed and its supplemental deeds, securities law or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of a fund.
Loan Financing Risk	This risk occurs when investors take a loan / financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments.

Country Risk	Investments of a fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which a fund invests in.
Suspension Risk	Refers to situation where the Manager suspends dealings of units in a fund (no redemption or subscription are allowed) under exceptional circumstances as set out in the Prospectus - Temporary suspension of determination of NAV and of the issue, switching and redemption of units. Suspension of a fund may potentially result in unit holders not being able to redeem their units into cash based on their liquidity needs and their investments will continue to be subject to the risk factors inherent in the Fund.

Specific risks associated with the Fund

Credit and Default Risk	Credit risk relates to the creditworthiness of the issuers of the fixed income instruments and their expected ability to make timely payment of profit or interest and/or principal. Default risk relates to the risk that an issuer of a fixed income instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the fixed income instruments.
Rate of Return Risk	Rate of return risk refers to the impact of rate of return changes on the valuation of fixed income instruments. When rate of return rises, fixed income instruments prices generally decline and this may lower the market value of the Fund's investment in fixed income instruments. The reverse may apply when rate of return falls.
Liquidity Risk	Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund and consequently the value of the Unit Holders' investments in the Fund will be negatively affected when it has to sell such assets at unfavourable prices.
Shariah Non-Compliance Risk	This is the risk of the Fund not conforming to Shariah investment guidelines. Note that as the Fund can only invest in Shariah Compliant instruments, non-compliance may adversely affect the NAV of the Fund when the rectification of non-compliance results in losses.
Counterparty Credit Risk	Counterparty credit risk is the risk arising from the possibility that the counterparty may default or not able to fulfill a trade settlement prior or on the settlement date of the trade. This could adversely affect the value of the Fund.
Currency Risk	As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments.

Note: The abovementioned risks which investors should consider before investing in the Fund should not be considered to be an exhaustive list. Investors should be aware that investments in the Fund may be exposed to other unforeseeable risks from time to time. Investors are advised to consult their professional adviser. Please refer to the Prospectus under "Risk Factors" for further details on risks.

Please note that if you invest in units through a distributor via a nominee system of ownership, you will not be deemed a unit holder under the deed of the Fund.

What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before investing in the Fund.

What will I be charged by AFM?

Entry Charge	There is no entry charge for this Fund.
Exit Penalty	There is no exit penalty for this Fund.
Transfer Fee	Nil.
Bank Charges/Fees	Bank charges or fees are incurred only upon withdrawals.
Switching Fee	For switches between any of the funds managed by AFM, investors will be charged on the differences of entry charge between funds switched, which is up to a maximum of 6% of NAV per unit of the fund switched into. No entry charge will be imposed if the fund to be switched into has a lower entry charge. However, the Manager has the discretion to waive or reduce the switching fee. Switching may also be subject to an exit penalty should the fund switched out impose an exit penalty.

What are the key ongoing fees charged to the Fund?

Annual Management Fee	Up to 0.75% per annum of the NAV of the Fund.
Annual Trustee Fee	Up to 0.08% per annum of the NAV of the Fund, subject to a minimum fee of RM10,000 per annum.

Note: Unless stated otherwise, all fees, charges and/or expenses disclosed in the Product Highlights Sheet are exclusive by way of example and not limitation; goods and services tax, value added tax, consumption tax, levies, duties and other taxes as may be imposed by the Government of Malaysia from time to time (collectively known as "Taxes"). If these fees, charges and/or expenses are subject to any Taxes, such Taxes shall be borne and payable by the unit holders and/or the Fund (as the case may be) at the prevailing rate, including any increase or decrease to the rate, in addition to the fees, charges and/or expenses stated herein.

You are advised to consider the fees and charges involved before investing in the Fund. Unit prices and distributions, if any, may go down as well as up.

How will I be notified of any increase in fees and charges?

- A written communication will be sent to unit holders to notify of the higher rate and its effective date; and
- A supplementary or replacement prospectus will be registered and issued.

How often are valuations available?

We publish updated information on our website www.aminvest.com; and the NAV per unit of the Fund is sent to the Federation of Investment Managers Malaysia ("FIMM") in order for it to be published in major newspapers on a daily basis.
