Purification Process for the Fund

Shariah non-compliant investment

The Manager will immediately dispose-off any Shariah non-compliant investment inadvertently made in the Fund. If the disposal of the Shariah non-compliant investment results in losses to the Fund, the losses are to be borne by the Manager by ensuring the loss portion is restored and returned to the Fund. The said investment will be disposed/withdrawn with immediate effect or within a month of knowing the status of the investment. In the event that there are any capital gains or dividend or profit received before or after the disposal of the investment, such gains will be channeled to Baitulmal and/or any other charitable bodies as advised by the Shariah Adviser. The Fund has the right to retain only the investment cost.

What are the possible outcomes of my investment?

Best Case	Capital appreciation and income distribution.
Mid Case	No significant change in investment i.e. no capital appreciation and no income distribution.
Worst Case	Capital loss and no income distribution.

What are the key risks associated with the Fund?

General investment risks

Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in a fund's net asset value.
Inflation Risk	This is the risk that investors' investments in a fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.
Non-Compliance Risk	This is the risk of the manager, the investment manager or the trustee not complying with their respective internal policies, the deed and its supplemental deeds, securities law or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of a fund.
Manager's Risk	This risk refers to the day-to-day management of a fund by the manager which will impact the performance of a fund.
Country Risk	Investments of a fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the fund invests in.
Financing Risk	This risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing payments.
Suspension Risk	Where the Manager suspends dealings of units in a fund (no redemption or subscription are allowed) under exceptional circumstances as set out in the Prospectus - Temporary suspension of determination of NAV and of the issue, switching and redemption of units. Suspension of a fund may potentially result in unit holders not being able to redeem their units into cash based on their liquidity needs and their investments will continue to be subject to the risk factors inherent in the Fund.

Specific risks associated with the Fund

Stock Specific Risk	Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies.
Currency Risk	As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency and the currencies of the Fund in which the investments are denominated may have an impact on the value of these investments.
Concentration Risk	This is the risk that the Fund may be overly concentrated in a few regions. As such, developments affecting any of those few regions may affect the NAV of the Fund more adversely as compared to the scenario where the Fund is more diversified across many regions.

Liquidity Risk	Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund and consequently the value of the unit holders' investments in the Fund will be negatively affected when it has to sell such assets at unfavourable prices.
Shariah Non-Compliance Risk	This is the risk of the Fund not conforming to Shariah Investment Guidelines. Shariah non-compliance may adversely affect the NAV of the Fund when the rectification of Shariah non-compliance results in losses.
Reclassification Of Shariah Status Risk	This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SAC of SC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary and allowable steps to rectify the non-compliance by taking into consideration of the interest of the unit holders.
Income Distribution Risk	The distribution of income is not guaranteed.
Sustainability and Responsible Investment and Impact Risk	<p>As the Fund has an intention to generate positive sustainable and responsible impact alongside a financial return ("impact"), the investor must be able to accept temporary capital losses due to the potentially restricted number of companies that the Fund can invest in due to those companies which may not meet the sustainability considerations requirement and, consequently, should view investment in the Fund as a long-term investment.</p> <p>The Fund may seek to exclude holdings deemed inconsistent with the sustainability considerations. As a result, the investments of the Fund will be more limited than other funds that do not apply sustainability considerations. The Fund may be precluded from purchasing, or required to sell, certain investments that are inconsistent with its investment policy and sustainability considerations which might otherwise be advantageous to hold. The incorporation of sustainability considerations could result in performance that is better or worse than the performance of the other funds depending on the performance of the excluded investments and the investments included in place of such excluded investments.</p> <p>This risk is mitigated via the investment policy and principal strategy of the Fund which involves segregation of the portfolios into two (2) sub-portfolios which consist of Shariah-compliant stocks in defensive sectors and all Shariah-compliant stocks from the Investable Universe weighted by volatility in inverse order. In times of actual or anticipated heightened market weaknesses, the Manager may increase the Fund's allocation to lower risk assets.</p>
Greenwashing Risk	<p>Greenwashing is defined as making false, misleading or unsubstantiated claims in relation to ESG credential of an investment product. The Fund may inadvertently invest into such products, without prior knowledge of the fraudulent claims. As greenwashing could result in reputational risk, regulatory fines, and/or withdrawal of the products, there could be a negative impact on the value of the Fund.</p> <p>In mitigating the greenwashing risk, the ESG score assigned to the securities by the service provider are reviewed by the Manager periodically, at least once a year. The Manager may use the ESG scores from other service providers for comparison and assessment, to identify potential inconsistencies. For Islamic liquid assets, the ESG score prescribed to the corporate issuers and depository financial institutions are reviewed and approved by the appropriate approving authorities internally, and updated periodically i.e. at least once a year.</p>

Note: The abovementioned risks which investors should consider before investing into the Fund should not be considered to be an exhaustive list. Investors should be aware that investments in the Fund may be exposed to other unforeseeable risks from time to time. Investors are advised to consult their professional adviser. Please refer to the Prospectus under "Risk Factors" for further details on risks.

Please note that if you invest in units through a distributor via a nominee system of ownership, you will not be deemed a unit holder under the deed of the Fund.
