PRS PROVIDER'S REPORT

Dear Members,

We are pleased to present you the PRS Provider's report and the audited accounts of AmPRS – Dynamic Sukuk ("Fund") for the financial year ended 31 August 2026.

Salient Information of the Fund

Name	AmPRS – Dynamic* Sukuk ("Fund") **The word "Dynamic" in this context refers to the Target Fund's investment strategy which is active management, not buy-and-hold strategy.*
Category/ Type	Feeder Fund (Sukuk) / Growth
Objective	The Fund aims to provide capital appreciation by investing in the AmDynamic* Sukuk (Target Fund). *Note: Any material change to the investment objective of the Fund would require Members' approval.*
Performance Benchmark	Bond Pricing Agency Malaysia (BPAM) Corporates Sukuk Index, which is also the performance benchmark of the Target Fund. (Available at www.aminvest.com) *Note: Effective 25 July 2015, the performance benchmark has been changed from Bloomberg AIBIM Bursa Malaysia Sovereign Shariah Index (BMSSI) to BPAM Corporates Sukuk Index.*
Income Distribution Policy	Subject to availability of income, distribution (if any) is incidental. At the Investment Manager's discretion, the Fund may distribute from its gain, income and capital. The rationale for distribution out of capital is to allow the Fund the ability to (i) declare distribution when the Fund has insufficient realised gains or realised income to do so or (ii) increase the amount of distributable income to the Members, after taking into consideration the risk of distributing out of capital. The Fund aims to provide capital appreciation. While this may generally mean that the Fund seeks to increase its NAV per unit, distributing out of capital may not necessarily erode the value of the investment of the Members as the distributions declared are reinvested back into the Fund. Hence, the Fund's capital distribution, if any, would still be consistent with the investment objective of the Fund. Distribution out of the Fund's capital has the effect of lowering the NAV of the Fund, may reduce part of the Members' original investment and may also result in reduced future returns to Members. When a substantial amount of the original investment is being returned to the Members, it has a risk of eroding the capital of the Fund and may, over time, cause the NAV of the Fund to fall. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished. Income distribution (if any) will be reinvested in the form of units.

Note:

(1) Total return is the actual return of the Fund for the respective financial years computed based on the net asset value per unit and net of all fees. Total return is calculated based on the published NAV/unit (last business day).

(2) Total expense ratio ("TER") is calculated based on the total fees and expenses incurred by the Fund divided by the average fund size calculated on a daily basis. The TER decreased by 0.03% as compared to 1.35% per annum for the financial year ended 31 August 2025 mainly due to increase in average fund size.

(3) Portfolio turnover ratio ("PTR") is calculated based on the average of the total acquisitions and total disposals of investment securities of the Fund divided by the average fund size calculated on a daily basis. The decrease in the PTR for 2026 and 2025 were due mainly to investing activities.

Market Review

The Malaysian bond market experienced significant volatility during the year under review, driven by shifting monetary policy expectations, geopolitical developments and movements in global interest rates.

In the third quarter of 2025, Bank Negara Malaysia's (BNM) 25bps cut in the Overnight Policy Rate (OPR) to 2.75% supported a rally in government bonds, particularly at the longer end of the yield curve. While investors initially positioned for further monetary easing, sentiment turned more cautious in September amid profit-taking activities and a weak 15-year Malaysian Government Securities (MGS) auction. Nevertheless, the Malaysian bond market ended 2025 on a firm footing, supported by resilient economic growth, stable monetary policy, robust foreign inflows, favourable liquidity conditions and limited bond supply.

Market conditions became more challenging in early 2026 as escalating geopolitical tensions, particularly the United States (US)-Israel-Iran conflict, together with uncertainty surrounding the global interest rate outlook, weighed on investor sentiment. Concerns over higher energy prices and renewed inflationary pressures triggered a broad sell-off in global bond markets, resulting in higher yields in the domestic bond market.

During the second quarter of 2026, MGS yields continued to trend higher amid persistent geopolitical risks, elevated energy prices and evolving global interest rate expectations. Despite weaker market sentiment, demand for sovereign bond and sukuk issuances remained healthy, supported by Malaysia's sound macroeconomic fundamentals and strong domestic institutional investor base.

Upward pressure on yields persisted into July 2026 as uncertainty surrounding the US Federal Reserve's (Fed) policy outlook and domestic developments continued to weigh on market sentiment. In August 2026, MGS yields rose across the curve, with the increase led by the longer end, followed by the belly of the

	curve. The movement broadly tracked higher Unites States Treasury (UST) yields amid growing market expectations of a Fed rate hike in September. The sell-off was also reflected in the corporate bond market, with yields adjusting higher, as evidenced by the 11–20bps increase in generic AAA yields at the medium to long end of the curve.
Market Outlook	Malaysia's macroeconomic backdrop remains broadly constructive heading into September 2026, supported by resilient domestic consumption, sustained investment activity and the continued implementation of public-sector development projects. Growth momentum remains firm, while inflation appears manageable. Nevertheless, the environment for Malaysian government bonds has become more challenging as external rate pressures and heavier domestic supply increasingly dominate near-term market direction. The recent sell-off in MGS and Government Investment Issues (GII) has been driven primarily by the rise in UST yields, which has reduced the relative appeal of duration across regional fixed-income markets. Higher global risk-free rates have also raised the hurdle for foreign participation and contributed to a broader repricing of term premia. At the same time, an increase in domestic bond supply has added pressure to the local market, particularly across the intermediate and longer ends of the yield curve. Domestic monetary conditions also warrant close attention. Although BNM has maintained the OPR at 2.75%, elevated money-market rates suggest that financial conditions are less accommodative than the policy rate alone would indicate. With economic activity remaining resilient, there is limited urgency for BNM to shift towards monetary easing. Consequently, the local bond market is likely to remain sensitive to changes in global yields, primary issuance and domestic liquidity conditions. Looking ahead, we expect market sentiment to remain cautious in the near term. The combination of elevated UST yields, heavier sovereign bond supply and limited prospects for an immediate policy-easing catalyst is likely to keep MGS and GII yields under upward pressure. While Malaysia's stable macroeconomic fundamentals and institutional domestic demand should reduce the likelihood of a disorderly adjustment, a sustained bond-market rally will be difficult without a meaningful decline in global yields or a clearer shift in BNM's policy trajectory.

8.	**CHAPTER 16. RELATED PARTY TRANSACTION / CONFLICT OF INTEREST** All transactions with related parties are to be executed on terms which are best available to the Scheme and which are not less favourable to the Scheme than an arm's length transaction between independent parties. The Scheme may have dealings with parties related to the PRS Provider. The related parties are AmIslamic Funds Management Sdn Bhd ("AIFM"), AmInvestment Bank Berhad, AmInvestment Group Berhad, AmBank (M) Berhad and AmBank Islamic Berhad. Trading in securities by an employee is allowed, provided that the policies and procedures in respect of the personal account dealing are observed and adhered to. The directors, the members of the committee undertaking the oversight function of the Funds and employees are required to disclose their portfolio holdings and dealing transactions as required under the Personal Account Dealing Policy and the Management of Conflict of Interest Policy. Further, the abovementioned shall make disclosure of their holding of directorship and interest in any company.	**CHAPTER 16. RELATED PARTY TRANSACTION / CONFLICT OF INTEREST** The PRS Provider has established policies and guidelines to identify, manage and mitigate situations that may give rise to actual or potential conflicts of interest. In circumstances where a conflict arises between the interests of the Scheme and those of any director, shareholder, committee member, or employee of the PRS Provider performing an oversight function, the affected individual shall recuse themselves and abstain from participating in any deliberation or decision-making process related to the matter, in order to preserve the integrity and impartiality of the Scheme' operations. The Scheme may engage in transactions with related parties related to the PRS Provider. The related parties defined are AmIslamic Funds Management Sdn. Bhd., AmInvestment Bank Berhad, AmInvestment Group Berhad, AmBank (M) Berhad and AmBank Islamic Berhad. Such transactions may involve: • dealings on sale and purchase of investment securities and instruments by the Scheme; • money market deposits and placements by the Scheme; and • holding of units in the Scheme by related parties. All related party transactions are to be executed on terms which are best available to the Scheme and which are not less favourable to the

		Scheme than an arm's length transaction between independent parties. The PRS Provider may conduct cross trades between funds and private mandates it currently manages provided that all criteria imposed by the regulators are met. Notwithstanding the above, cross trades between the personal account of an employee of the PRS Provider and the Scheme' account are strictly prohibited. The execution of cross trade (if any) will be reported to the investment committee and disclosed in the Scheme report accordingly. Trading in securities by directors, investment committee members and employees is permitted, provided that all activities strictly comply with the policies and guidelines on management of conflict of interest and personal account dealing. Furthermore, the aforementioned individuals must also disclose any directorships and interests held in any company, to ensure transparency and to facilitate the identification and management of potential conflicts of interest.
	Trustee To the best of the Trustee's knowledge, there has been no event of conflict of interest or related party transaction which exists between the Trustee and the PRS Provider or any potential occurrence of it. **Advisers** The auditors, tax adviser and Shariah Adviser have confirmed that they do not have any existing or potential conflict of interest with the PRS Provider and/or the Funds under the Scheme.	<u>Trustee</u> To the best of the Trustees' knowledge, there has been no event of conflict of interest or related party transaction which exists between the Trustee and the PRS Provider or any potential occurrence of it. <u>Advisers</u> The auditors, tax advisers and the Shariah Adviser have confirmed that there are no existing or potential conflicts of interest in their respective capacity as advisors for the PRS Provider.

Independent auditors' report to the members of
AmPRS – Dynamic Sukuk

Report on the audit of the financial statements

Opinion

We have audited the financial statements of AmPRS – Dynamic Sukuk (the "Fund"), which comprise the statement of financial position of the Fund as at 31 August 2026, and statement of comprehensive income, statement of changes in net assets attributable to members and statement of cash flows of the Fund for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 28 to 53.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 31 August 2026, and of its financial performance and cash flows for the financial year then ended in accordance with MFRS Accounting Standards and IFRS Accounting Standards.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial statements and auditors' report thereon

The Provider of the Fund (the "Provider") is responsible for the other information. The other information comprises the information included in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

Information other than the financial statements and auditors' report thereon (cont'd.)

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Provider and the Trustee for the financial statements

The Provider is responsible for the preparation of financial statements of the Fund that give a true and fair view in accordance with MFRS Accounting Standards and IFRS Accounting Standards. The Provider is also responsible for such internal control as the Provider determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Provider is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Provider either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the Provider maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Auditors' responsibilities for the audit of the financial statements (cont'd.)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Provider.

- Conclude on the appropriateness of the Provider's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Provider regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other matters

This report is made solely to the members of the Fund, as a body, in accordance with the Guidelines on Private Retirement Schemes issued by the Securities Commission Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2026

1. GENERAL INFORMATION

AmPRS – Dynamic Sukuk (the "Fund") was established pursuant to a Deed dated 4 December 2012 as amended by Deeds supplemental thereto (the "Deeds"), between AmFunds Management Berhad as the PRS Provider (the "Provider"), Deutsche Trustees Malaysia Berhad as the Trustee and all members.

The Fund aims to provide capital appreciation by investing in AmDynamic Sukuk ("Target Fund"), a fund managed by the Provider. Being a feeder fund, a minimum of 85% of the Fund's NAV will be invested in the Target Fund. As provided in the Deeds, the financial year shall end on 31 August and the units in the Fund were first offered for sale on 25 November 2013.

The financial statements were authorised for issue by the Provider on 20 October 2026.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Fund have been prepared on a historical cost basis, except as otherwise stated in the accounting policies and comply with MFRS Accounting Standards as issued by the Malaysian Accounting Standards Board ("MASB") and IFRS Accounting Standards.

Standards effective during the financial year

The adoption of the following amendments to MFRS Accounting Standards which became effective during the financial year did not have any material financial impact to the financial statements.

Description	**Effective for financial periods beginning on or after**
Amendments to MFRS 121 *The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability*	1 January 2025

Standards issued but not yet effective

The new and amended standards that have been issued but not yet effective up to the date of issuance of the Fund's financial statements are disclosed below. The Fund intends to adopt these new pronouncements, if applicable, when they become effective.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONT'D.)

Standards issued but not yet effective (cont'd.)

Amendments to MFRS 10 and MFRS 128: *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture**	Deferred

* These MFRS Accounting Standards and Amendments to MFRS Accounting Standards are not relevant to the Fund.

These pronouncements are not expected to have any material impact on the financial statements of the Fund upon their initial application, other than MFRS 18. The Fund is currently assessing the impact of adopting MFRS 18.

3. MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

(i) Distribution income

Distribution income is recognised when the Fund's right to receive the payment is established.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D.)

3.1 Income recognition (cont'd.)

(ii) Profit income

Profit income is recognised on an accrual basis using the effective profit method.

(iii) Gain or loss on disposal of Shariah-compliant investment

On disposal of Shariah-compliant investment, the net realised gain or loss on disposal is measured as the difference between the net disposal proceeds and the carrying amount of the Shariah-compliant investment. The net realised gain or loss is recognised in profit or loss.

3.2 Income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income ("OCI") or directly in equity.

3.3 Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the Fund operates that most faithfully represents the economic effects of the underlying transactions. The functional currency of the Fund is Ringgit Malaysia ("RM") which is the currency in which the Fund competes for funds, issues and redeems units. The Fund has also adopted RM as its presentation currency.

3.4 Statement of cash flows

The Fund adopts the direct method in the preparation of the statement of cash flows.

Cash and cash equivalents are short-term, highly liquid Shariah-compliant investment that is readily convertible to cash with insignificant risk of changes in value.

3.5 Members' contribution

The members' contribution of the Fund is classified as liabilities under the requirements of MFRS 132 *Financial Instruments: Presentation.*

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D.)

3.5 Members' contribution (cont'd.)

Under MFRS 132, a unit trust fund with one common class of members is classified as equity as it meets the requirement of having identical features. In a multi-unit class fund, if any one class (or a group of classes) can be differentiated in terms of their features, then all the classes will be classified as liabilities.

The Fund issues cancellable units in two classes. Details are disclosed in Note 10.

3.6 Distribution

Distribution is at the discretion of the Provider. A distribution to the Fund's members is accounted for as a deduction from realised income and recognised in the statement of comprehensive income, as the members' contribution is classified as financial liability as per Note 3.5. Realised income is the income earned from profit income, distribution income, other income and net gain on disposal of Shariah-compliant investment after deducting expenses and taxation. A proposed distribution is recognised as a liability in the period in which it is approved. Distribution is either reinvested or paid in cash to the members on the distribution payment date. Reinvestment of units is based on the NAV per unit on the distribution payment date, which is also the time of creation.

3.7 Financial instruments – initial recognition and measurement

(i) Initial recognition

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised using trade date accounting or settlement date accounting. The method used is applied consistently for all purchases and sales of financial assets that belong to the same category of financial assets.

(ii) Initial measurement

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at FVTPL, transaction costs that are attributable to the acquisition of the financial assets. All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not recorded at FVTPL, net of directly attributable transaction costs.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D.)

3.7 Financial instruments – initial recognition and measurement (cont'd.)

(iii) "Day 1" profit or loss

At initial measurement, if the transaction price differs from the fair value, the Fund immediately recognises the difference between the transaction price and fair value (a "Day 1" profit or loss) in profit or loss provided that fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. Level 1 input) or based on a valuation technique that uses only data from observable markets. In all other cases, the difference between the transaction price and model value is recognised in profit or loss on a systematic and rational basis that reflects the nature of the instrument over its tenure.

3.8 Financial assets

Classification and measurement

The classification of financial assets depends on the Fund's business model of managing the financial assets in order to generate cash flows ("business model test") and the contractual cash flow characteristics of the financial instruments ("SPPP test"). The business model test determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both and the assessment is performed on a portfolio basis. The SPPP test determines whether the contractual cash flows are solely for payments of principal and profit and the assessment is performed on a financial instrument basis.

The Fund may classify its financial assets under the following categories:

Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding. Financial assets include in this category are Shariah-compliant deposits with licensed financial institutions, cash at banks, amount due from Provider, amount due from Target Fund Manager, amount due from brokers/financial institutions, distribution/dividend receivables and other receivables.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D.)

3.8 Financial assets (cont'd.)

Classification and measurement (cont'd.)

The Fund may classify its financial assets under the following categories: (cont'd.)

Financial assets at fair value through other comprehensive income ("FVOCI")

A financial asset is measured at FVOCI if its business model is both to hold the asset to collect contractual cash flows and to sell the financial asset. In addition, the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and profit on the outstanding principal.

These Shariah-compliant investments are initially recorded at fair value and transaction costs are expensed in the profit or loss. Subsequent to initial recognition, these Shariah-compliant investments are remeasured at fair value. All fair value adjustments are initially recognised through OCI. Debt instruments at FVOCI are subject to impairment assessment.

Financial assets at FVTPL

Any financial assets that are not measured at amortised cost or FVOCI are measured at FVTPL. Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of those financial instruments are recorded in "Net gain or loss on financial assets at FVTPL". Distribution revenue and profit earned elements of such instruments are recorded separately in "Distribution income" and in "Profit income" respectively.

Instruments that qualify for amortised cost or FVOCI may be irrevocably designated as FVTPL, if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Equity instruments are normally measured at FVTPL, nevertheless, the Fund is allowed to irrevocably designate equity instruments that are not held for trading as FVOCI, with no subsequent reclassification of gains or losses to profit or loss.

The Fund subsequently measures its Shariah-compliant investment at FVTPL. Distribution revenue and profit earned whilst holding the Shariah-compliant investment are recognised in profit or loss when the right to receive the payment have been established. Gains and losses on the Shariah-compliant investment, realised and unrealised, are included in profit or loss.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D.)

3.9 Financial liabilities – classification and subsequent measurement

Financial liabilities issued by the Fund are classified as financial liabilities at amortised cost, where the substance of the contractual arrangement results in the Fund having an obligation either to deliver cash or another financial asset to the members. After initial measurement, financial liabilities are subsequently measured at amortised cost using the effective profit method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective profit rate.

3.10 Derecognition of financial instruments

(i) Derecognition of financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired, or
- the Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either:
  - the Fund has transferred substantially all the risks and rewards of the asset, or
  - the Fund has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

For Shariah-compliant investments classified as FVOCI - debt instruments, the cumulative fair value change recognised in OCI is recycled to profit or loss.

(ii) Derecognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Gains and losses are recognised in profit or loss when the liabilities are recognised, and through the amortisation process.

3.11 Financial instruments – expected credit losses ("ECL")

The Fund assesses the ECL associated with its financial assets at amortised cost using simplified approach. Therefore, the Fund does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECL at each reporting date. The ECL in respect of financial assets at amortised cost, if any, is recognised in profit or loss.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D.)

3.11 Financial instruments – expected credit losses ("ECL") (cont'd.)

Financial assets together with the associated allowance are written off when it has exhausted all practical recovery efforts and there is no realistic prospect of future recovery. The Fund may also write-off financial assets that are still subject to enforcement activity when there is no reasonable expectation of full recovery. If a write-off is later recovered, the recovery is credited to profit or loss.

3.12 Determination of fair value

For the Shariah-compliant investment in Collective Investment Scheme ("CIS"), fair value is determined based on the closing NAV per unit of the CIS. Purchased cost is the quoted price that the Fund paid when buying its Shariah-compliant investment. The difference between purchased cost and fair value is treated as unrealised gain or loss and is recognised in profit or loss.

3.13 Classification of realised and unrealised gains and losses

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposals of financial instruments classified at FVTPL are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

3.14 Significant accounting estimates and judgments

The preparation of the Fund's financial statements requires the Provider to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

The Fund classifies its Shariah-compliant investment as financial assets at FVTPL as the Fund may sell its Shariah-compliant investment in the short-term for profit-taking or to meet members' cancellation of units.

No major judgments have been made by the Provider in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

11. SIGNIFICANT RELATED PARTIES TRANSACTIONS AND BALANCES

The related parties and their relationships with the Fund are as follows:

Related parties	Relationships
AmFunds Management Berhad	The Provider
AmInvestment Bank Berhad	Holding company of the Provider
AMMB Holdings Berhad ("AMMB")	Ultimate holding company of the Provider
Subsidiaries and associates of AMMB as disclosed in its financial statements	Subsidiaries and associate companies of the ultimate holding company of the Provider

There are no units held by the Provider or any other related party as at 31 August 2026 and 31 August 2025.

12. TAXATION

Pursuant to Paragraph 20 of Schedule 6 of the Income Tax Act ("ITA"), any income received by an approved scheme as defined under Section 2 of the ITA is exempted from income tax.

12. TAXATION (CONT'D.)

A reconciliation of income tax expense applicable to net (loss)/income before finance cost and taxation at the statutory income tax rate to income tax expense at the effective income tax rate of the Fund is as follows:

	2026 RM	2025 RM
Net (loss)/income before finance cost and taxation	(3,959)	71,945
Taxation at Malaysian statutory rate of 24% (2025: 24%)	(950)	17,267
Tax effects of:

13. DISTRIBUTION

Details of distribution to members for the current financial year are as follows:

Financial year ended 31 August 2026

	Distribution Ex-date	Gross distribution per unit RM (sen)	Net distribution per unit RM (sen)	Total distribution RM
(a)	**Class D**			
	24 October 2025	0.5425	0.5425	8,479
(b)	**Class I**			
	24 October 2025	0.4866	0.4866	5,767

Gross distribution per unit is derived from gross realised income less expenses divided by the number of units in circulation, while net distribution per unit is derived from gross realised income less expenses and taxation divided by the number of units in circulation.

13. DISTRIBUTION (CONT'D.)

The distribution declared for the financial year ended 31 August 2026 has been proposed before taking into account the net unrealised loss of RM67,129 arising during the financial year which is carried forward to the next financial year.

The distribution during the current financial year was sourced from realised income. There was no distribution out of capital.

14. TOTAL EXPENSE RATIO ("TER")

The Fund's TER is as follows:

	2026 % p.a.	2025 % p.a.
Management fee	0.02	0.02
Trustee's fee	0.04	0.04
PPA administrative fee	0.04	0.04
Fund's other expenses	1.22	1.25
Total TER	1.32	1.35

The TER of the Fund is the ratio of the sum of fees and expenses incurred by the Fund to the average NAV of the Fund calculated on a daily basis.

15. PORTFOLIO TURNOVER RATIO ("PTR")

The PTR of the Fund, which is the ratio of average total acquisitions and disposals of Shariah-compliant investment to the average NAV of the Fund calculated on a daily basis is 0.07 times (2025: 0.09 times).

16. SEGMENTAL REPORTING

As stated in Note 1, the Fund is a feeder fund whereby a minimum of 85% of the Fund's NAV will be invested in the Target Fund.

As the Fund invests primarily in the Shariah-compliant CIS, it is not possible or meaningful to classify its Shariah-compliant investment by separate business or geographical segments.

17. TRANSACTIONS WITH THE PROVIDER

Details of transactions with the Provider for the financial year ended 31 August 2026 are as follows:

Provider	Transactions value	
	RM	%
AmFunds Management Berhad	281,070	100.00

The Provider is of the opinion that the above transactions have been entered in the normal course of business and have been established under terms that are no less favourable than those arranged with independent third parties.

The above transactions are in respect of investment in Shariah-compliant CIS. Transactions in this Shariah-compliant investment do not involve any commission or brokerage fee.

18. FINANCIAL INSTRUMENTS

(a) Classification of financial instruments

The accounting policies in Note 3 describe how the classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the financial assets and financial liabilities of the Fund in the statement of financial position by the class of financial instrument to which they are assigned, and therefore by the measurement basis.

18. FINANCIAL INSTRUMENTS (CONT'D.)

(b) Financial instruments that are carried at fair value

The Fund's financial assets and liabilities are carried at fair value.

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable; either directly or indirectly; or

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by the level of the fair value hierarchy:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
2026				
Financial asset at FVTPL	-	2,082,185	-	2,082,185
2025				
Financial asset at FVTPL	-	1,959,663	-	1,959,663

(c) Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value due to their short period to maturity or short credit period:

- Amount due from/to Provider
- Cash at bank
- Amount due to Target Fund Manager
- Amount due to Trustee
- Amount due to PPA

There are no financial instruments which are not carried at fair value and whose carrying amounts are not reasonable approximation of their respective fair value.

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks that include market risk, credit risk, liquidity risk, single issuer risk, regulatory risk, management risk, non-compliance risk and Shariah non-compliance risk.

Risk management is carried out by closely monitoring, measuring and mitigating the above said risks, careful selection of Shariah-compliant investments coupled with stringent compliance to Shariah-compliant investment restrictions as stipulated by the Capital Markets and Services Act 2007, Securities Commission Malaysia's Guidelines on Private Retirement Schemes, Securities Commission Malaysia's Guidelines on Islamic Capital Market Products and Services, and the Deeds as the backbone of risk management of the Fund.

(a) Market risk

The Fund's principal exposure to market risk arises primarily due to changes in the market environment, global economic and geopolitical developments.

The Fund's market risk is affected primarily by the following risks:

(i) Price risk

Price risk refers to the uncertainty of an investment's future prices. In the event of adverse price movements, the Fund might endure potential loss on its Shariah-compliant investment in the Target Fund. In managing price risk, the Provider actively monitors the performance and risk profile of the investment portfolio.

The result below summarised the price risk sensitivity of the Fund's NAV due to movements of price by -5.00% and +5.00% respectively:

Percentage movements in price by:	**Sensitivity of the Fund's NAV**	
	2026	**2025**
	RM	**RM**
-5.00%	(104,109)	(97,983)
+5.00%	104,109	97,983

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(b) Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge an obligation. Credit risk applies to distribution receivables. The issuer of such instruments may not be able to fulfill the required profit payments or repay the principal invested or amount owing. These risks may cause the Fund's Shariah-compliant investment to fluctuate in value.

The Fund, as a feeder fund, invests significantly all its assets in the Target Fund. The Target Fund manages the risk by setting internal counterparty limits and undertaking internal credit evaluation to minimise such risk.

Cash at bank is held for liquidity purposes and is not exposed to significant credit risk.

(c) Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its financial liabilities or redeem its units earlier than expected. This is also the risk of the Fund experiencing large redemptions, when the Investment Manager could be forced to sell large volumes of its holdings at unfavorable prices to meet redemption requirements.

The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by members. Liquid assets comprise of cash at banks, Shariah-compliant deposits with licensed financial institutions and other instruments, which are capable of being converted into cash within 5 to 7 days. The Fund's policy is to always maintain a prudent level of liquid assets so as to reduce liquidity risk.

The Fund's financial liabilities have contractual maturities of not more than six months.

(d) Single issuer risk

The Fund, as a feeder fund, invests significantly all its assets in the Target Fund. The Target Fund is restricted from investing in securities issued by any issuer in excess of a certain percentage of its NAV. Under such restriction, the risk exposure to the securities of any single issuer is diversified and managed by the Target Fund Manager based on internal/external ratings.

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(e) Regulatory risk

Any changes in national policies and regulations may have effects on the capital market and the NAV of the Fund.

(f) Management risk

Poor management of the Fund may cause considerable losses to the Fund that in turn may affect the NAV of the Fund.

(g) Non-compliance risk

This is the risk of the Provider or the Trustee not complying with their respective internal policies, the Deeds, securities laws or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the Fund.

(h) Shariah non-compliance risk

This is the risk of the Fund not conforming to Shariah Investment Guidelines. The Shariah Adviser for the Fund would be responsible for ensuring that the Fund is managed and administered in accordance with Shariah Investment Guidelines. Note that as the Fund can only invest in Shariah-compliant instruments, non-compliance may adversely affect the NAV of the Fund when the rectification of non-compliance results in losses.

20. CAPITAL MANAGEMENT

The capital of the Fund can vary depending on the demand for creation and cancellation of units to the Fund.

The Fund's objectives for managing capital are:

(a) To invest in Shariah-compliant investment meeting the description, risk exposure and expected return indicated in its Disclosure Document;

(b) To maintain sufficient liquidity to meet the expenses of the Fund, and to meet cancellation requests as they arise; and

(c) To maintain sufficient fund size to make the operations of the Fund cost-efficient.

No changes were made to the capital management objectives, policies or processes during the current and previous financial years.
