

Fund Overview
Investment Objective

AmPRS – Tactical Bond (the "Fund") aims to provide returns through income* and to a lesser extent capital appreciation by investing in the AmTactical Bond.

The Fund is suitable for Members who:

- are willing to assume risks associated with investing in securities with long duration (i.e. there will be no portfolio maturity limitation) and low credit ratings (i.e. there will be no minimum rating for the securities purchased or held by the Target Fund).

Notes: *Income distribution (if any) will be reinvested in the form of units.

Any material change to the investment objective of the Fund would require Unit Holders' approval.

The returns presented are net of all relevant fees, charges, and costs associated with the private retirement schemes investment. These may include, but are not limited to, management fees, trustee fees, and other applicable charges. Over time, such fees and charges can materially reduce the overall returns on your investment.

It is important to note that the sales charge is deducted upfront and directly reduces the amount of the initial investment that is allocated to the fund, which in turn can have the effect of lowering returns to investors in the long run. These costs may be deducted from your investment amount, from the returns generated, or directly from the Fund's assets, and are reflected in the unit price (NAV per unit). This includes expenses related to the marketing and distribution of the Fund. Additionally, all fees and charges payable to the Manager and the Trustee are subject to applicable taxes and/or duties, which may vary from time to time as imposed by the government.

Given the impact these costs can have on your investment returns, investors are strongly advised to read and understand the contents of the Fund's disclosure documents and consider the cumulative impact of these costs before making any investment decision.

Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well up.

Income Distribution History

Year	Total Net Payout per unit (Sen)	Yield (%)
2025	2.16	3.63
2024	N/A	N/A
2023	N/A	N/A
2022	1.00	1.50
2021	1.10	1.65

Historical income distribution is not indicative of future income distribution payout. The income could be in the form of units or cash. Unit prices and income distribution, if any, may rise or fall. Where an income distribution is declared, investors are advised that following the distribution the net asset value per unit will be reduced from cum-distribution NAV to ex-distribution NAV.

PRS Provider's Commentary (as at 31 December 2025)

Malaysia's fixed income market enters 2026 on a stable and constructive footing, supported by steady macroeconomic conditions, moderate inflation and credible fiscal consolidation. Bank Negara Malaysia is expected to maintain policy rates, anchoring the yield curve and reducing volatility. Attractive real yields relative to regional peers continue to draw both domestic and foreign investors.

Total returns are projected in the mid-single-digit range, driven primarily by carry income rather than capital gains. Supply dynamics remain manageable, while fiscal discipline reinforces sovereign credit confidence. Corporate bonds and sukuk offer compelling opportunities, underpinned by strong issuer fundamentals and low default risk.

Key risks include global rate volatility, foreign fund flow shifts, and currency sensitivity. However, Malaysia's deep domestic investor base and improving fiscal metrics provide resilience against external shocks.

For 2026, an income-oriented strategy is recommended:

- Duration: Neutral to slightly long, focusing on the 5–7-year segment for roll-down and yield pick-up.
- Credit: Prioritize high-quality investment-grade corporates and sukuk; maintain selective exposure to higher-yielding credits with strict risk controls.
- Portfolio Construction: Diversify across MGS/GII, quasi-sovereigns, and corporates; emphasize liquidity management and active credit selection.
