MANAGER'S REPORT

Dear Unitholders,

We are pleased to present you the Manager's report and the unaudited quarterly accounts of AmSustainable Series - Positive Change Fund ("Fund") for the financial period from 1 May 2026 to 31 July 2026.

Salient Information of the Fund

Name	AmSustainable Series - Positive Change Fund ("Fund")
Category/ Type	Wholesale (Feeder Fund) / Growth
Name of Target Fund	Baillie Gifford Worldwide Positive Change Fund
Objective	The Fund seeks to provide long-term capital growth. <i>Note: Any material change to the investment objective of the Fund would require Unit Holders' approval.</i>
Duration	The Fund was established on 27 May 2021 and shall exist for as long as it appears to the Manager and the Trustee that it is in the interests of the unitholders for it to continue. In some circumstances, the unitholders can resolve at a meeting to terminate the Fund.
Performance Benchmark	MSCI All Country World Index. (Available at www.aminvest.com) <i>Source: MSCI. The MSCI information may only be used for your internal use, may not be reproduced or disseminated in any form and may not be used as a basis for or a component of any financial instruments or products or indices. None of the MSCI information is intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Historical data and analysis should not be taken as an indication or guarantee of any future performance analysis, forecast or prediction. The MSCI information is provided on an "as is" basis and the user of this information assumes the entire risk of any use made of this information. MSCI, each of its affiliates and each other person involved in or related to compiling, computing or creating any MSCI information (collectively, the "MSCI Parties") expressly disclaims all warranties (including, without limitation, any warranties of originality, accuracy, completeness, timeliness, non-infringement, merchantability and fitness for a particular purpose) with respect to this information. Without limiting any of the foregoing, in no event shall any MSCI Party have any liability for any direct, indirect, special, incidental, punitive, consequential (including, without limitation, lost profits) or any other damages. (www.msci.com).</i>
Income Distribution Policy	Given the Fund's investment objective, the Classes of the Fund are not expected to pay any distribution. Distributions, if any, are at the Manager's discretion. <u>RM and RM-Hedged Classes</u> Distribution, if any, can be in the form of cash (by telegraphic transfer) or units (by reinvestment into units of the respective Classes).

	<u>Other Classes except for RM and RM-Hedged Classes</u> Distribution, if any, to be reinvested into units of the respective Classes. <i>Notes: Income distribution amount (if any) for each of the Classes could be different and is subject to the sole discretion of the Manager. For RM and RM-Hedged Classes only, if income distribution earned does not exceed RM500, it will be automatically reinvested.</i>																																																																				
Breakdown of Unit Holdings by Size	For the financial period under review, the size of the Fund for RM-Hedged Class stood at 26,610,530 units and for USD Class stood at 255,848 units. <u>RM-Hedged Class</u> <table><tr><th rowspan="2">Size of holding</th><th colspan="2">As at 31 July 2026</th><th colspan="2">As at 30 April 2026</th></tr><tr><th>No of units held</th><th>Number of unitholders</th><th>No of units held</th><th>Number of unitholders</th></tr><tr><td>5,000 and below</td><td>-</td><td>-</td><td>-</td><td>-</td></tr><tr><td>5,001-10,000</td><td>-</td><td>-</td><td>-</td><td>-</td></tr><tr><td>10,001-50,000</td><td>13,969</td><td>1</td><td>13,969</td><td>1</td></tr><tr><td>50,001-500,000</td><td>820,064</td><td>3</td><td>844,934</td><td>3</td></tr><tr><td>500,001 and above</td><td>25,776,497</td><td>4</td><td>26,835,833</td><td>4</td></tr></table> <u>USD Class</u> <table><tr><th rowspan="2">Size of holding</th><th colspan="2">As at 31 July 2026</th><th colspan="2">As at 30 April 2026</th></tr><tr><th>No of units held</th><th>Number of unitholders</th><th>No of units held</th><th>Number of unitholders</th></tr><tr><td>5,000 and below</td><td>-</td><td>-</td><td>-</td><td>-</td></tr><tr><td>5,001-10,000</td><td>-</td><td>-</td><td>-</td><td>-</td></tr><tr><td>10,001-50,000</td><td>12,531</td><td>1</td><td>12,531</td><td>1</td></tr><tr><td>50,001-500,000</td><td>243,317</td><td>1</td><td>293,068</td><td>1</td></tr><tr><td>500,001 and above</td><td>-</td><td>-</td><td>-</td><td>-</td></tr></table>	Size of holding	As at 31 July 2026		As at 30 April 2026		No of units held	Number of unitholders	No of units held	Number of unitholders	5,000 and below	-	-	-	-	5,001-10,000	-	-	-	-	10,001-50,000	13,969	1	13,969	1	50,001-500,000	820,064	3	844,934	3	500,001 and above	25,776,497	4	26,835,833	4	Size of holding	As at 31 July 2026		As at 30 April 2026		No of units held	Number of unitholders	No of units held	Number of unitholders	5,000 and below	-	-	-	-	5,001-10,000	-	-	-	-	10,001-50,000	12,531	1	12,531	1	50,001-500,000	243,317	1	293,068	1	500,001 and above	-	-	-	-

(b) MSCI All Country World Index. (Available at www.aminvest.com).

(c) Total actual return for the financial period from 27 May 2021 (date of launch) to 31 January 2022.

The Fund performance is calculated based on the net asset value per unit of the Fund. Average total return of the Fund and its benchmark for a period is computed based on the absolute return for that period annualised over one year.

Note: Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.

Fund Performance

RM-Hedged Class

For the financial period under review, the Fund registered a return of 7.15% which is entirely capital growth in nature.

Thus, the Fund's return of 7.15% has outperformed the benchmark's return of 7.02% by 0.13%.

As compared with the financial period ended 30 April 2026, the net asset value ("NAV") per unit of the Fund increased by 7.15% from RM0.7317 to RM0.7840, while units in circulation decreased by 3.91% from 27,694,736 units to 26,610,530 units.

The following line chart shows the comparison between the annual performances of AmSustainable Series – Positive Change Fund (RM-Hedged Class) and its benchmark for the financial period/years ended 31 January.

USD Class

For the financial period under review, the Fund registered a return of 7.81% which is entirely capital growth in nature.

Thus, the Fund's return of 7.81% has outperformed the benchmark's return of 4.03% by 3.78%.

As compared with the financial period ended 30 April 2026, the net asset value ("NAV") per unit of the Fund increased by 7.81% from USD0.8901 to USD0.9596, while units in circulation decreased by 16.28% from 305,599 units to 255,848 units.

The following line chart shows the comparison between the annual performances of AmSustainable Series – Positive Change Fund (USD Class) and its benchmark for the financial period/years ended 31 January.

Financial Period/Years Ended (31 January)

Note: Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.

Performance of the Target Fund

Fund Performance review of the Target Fund – Baillie Gifford Worldwide Positive Change Fund (Class B) (“the Target Fund”)

The Target Fund invests in an actively managed portfolio of 25-50 global high quality growth companies which can deliver positive change in one of four current areas: Social Inclusion and Education, Environment and Resource Needs, Healthcare and Quality of Life; and Base of the Pyramid (addressing the needs of the world's poorest populations). The Positive Change Decision Makers generate ideas from a diverse range of sources. With a focus on fundamental in-house research, the team complete a two stage analysis of all holdings, looking at both the financial and positive change aspects case for each stock using a consistent framework. The output is a high conviction and differentiated portfolio. We aim for a low turnover, around 20% per annum over the long run.

Strategies and Policies Employed

Strategies and Policies employed by Target Fund

Investment Objectives

The investment objectives of the Target Fund are to produce capital growth over the long term and to contribute towards a more sustainable and inclusive world by investing primarily in the equities of companies whose products and/or services make a positive social and/or environmental impact. The Target Fund may also invest in other transferable securities, money market instruments, cash and cash equivalents.

Investment Policy

The Target Fund will seek to achieve its objective primarily through investment in a concentrated but diversified portfolio of equity securities which shall principally be listed, traded or dealt in on one or more Regulated Markets and through investment in a concentrated but diversified portfolio of equities of companies whose products and/or services make a positive environmental and/or social impact. This will include

companies addressing critical social challenges in areas such as, but not limited to: education, social inclusion, healthcare, the environment and the base of the pyramid (i.e. addressing the needs of the poorest four billion people in the world). The equity securities in which the Target Fund will invest shall primarily consist of common stocks and other transferable securities such as convertible securities, preferred securities, participation notes, convertible preferred securities, warrants and rights. The equity securities in which the Target Fund may invest will not be selected from any particular industry sector or from any particular country and may be of small, medium or large market capitalisation, with no specific target allocation between small, medium and large market capitalisation companies.

Investments in Emerging Market Countries may be acquired subject to a limit of 50 per cent. of the Net Asset Value of the Target Fund.

The Target Fund may have exposure to Permissible PRC Instruments directly via the Stock Connects and/or through FII Scheme (including via the Science and Technology Innovation Board ("STAR Board") of the Shanghai Stock Exchange and ChiNext market of the Shenzhen Stock Exchange via the Stock Connects or FII Scheme) or indirectly via investments in structured notes, participation notes, equity-linked notes or Eligible Collective Investment Schemes that invest primarily in Permissible PRC Instruments, structured notes, participation notes, equity-linked notes and similar financial instruments. The underlying assets of the structured notes, participation notes and equity-linked notes must consist of securities issued by companies quoted on Regulated Markets in China, and/or the performance of which is linked to the performance of securities issued by companies quoted on Regulated Markets in China.

The Target Fund will not invest more than 10 per cent. of its Net Asset Value in units or shares of Eligible Collective Investment Schemes, including exchange traded funds. The Eligible Collective Investment Schemes in which the Target Fund may invest will have similar investment objectives and policies to the Target Fund.

Cash Management

Cash is a residual element of the investment process. Cash may be held on deposit by the Target Fund. Cash equivalents may also be held by the Target Fund from time to time. Cash equivalents are commercial paper, banker's acceptances, certificates of deposit and government securities or securities issued by any Supranational Organisation, provided these securities are listed, traded or dealt in on a Regulated Market and are rated investment grade or better by a Recognised Rating Agency.

Use of Derivatives

The Target Fund may invest in currency forwards to reduce currency risk but not to take active positions on currency. Such use will be for efficient portfolio management purposes in the manner described under the heading "Investment Techniques and Instruments".

Other than the Target Fund's investment in convertible securities, preferred securities, participation notes, convertible preferred securities, warrants and rights for investment purposes, the Target Fund may only use financial derivative instruments referred to under the heading "Investment Techniques and Instruments" for efficient portfolio management purposes. To the extent that the Target Fund uses financial derivative instruments which create leverage, the limits on global exposure described in Schedule IV under the heading "Cover Requirements" apply. In particular, leverage will be measured using the commitment approach, whereby such leverage cannot exceed 100 per cent. of the Net Asset Value of the Target Fund. For a fuller description of the risks involved, please see the section entitled "Risk Factors". A financial derivative instruments risk management process, setting out the types of financial derivative instruments in which the Target Fund may invest has been filed

with the Central Bank in accordance with the UCITS Rules. Derivatives, in general, involve special risks and costs and may result in losses to the Target Fund.

Other than through investment in convertible securities, preferred securities, convertible preferred securities, warrants, rights, structured notes, participation notes and equity-linked notes as set out above, the Target Fund will not actively take positions in securities which contain embedded derivatives but it may acquire them passively through corporate actions, for example, where the Target Fund is issued with securities pursuant to a rights issue in respect of a pre-existing investment and those securities have warrants attached to them. The Investment Manager does not expect such embedded derivatives to be leveraged.

The investment strategy of the Target Fund is to produce capital growth over the long term and contribute towards a more sustainable and inclusive world by investing at least 90 per cent. in the equities of companies whose products and/or services in the Investment Manager's opinion, deliver a positive social and/or environmental impact. The Target Fund will invest in equities of companies which are listed, traded or dealt in on Regulated Markets worldwide. Companies that make a positive social and/or environmental impact are selected on an individual stock selection basis by a dedicated team of portfolio managers, using a 'bottom-up' approach and drawing on their own research and that of other investment teams at Baillie Gifford. The Investment Manager seeks to identify companies for whom delivering a positive social and/or environmental impact is core to their business; whose products and/or services represent an improvement to the prevailing practices; and who conduct business with honesty and integrity. This will include companies addressing critical challenges in the four impact themes, each of which represent key global challenges: (i) social inclusion and education; (ii) environment and resource needs; (iii) healthcare and quality of life; and (iv) base of the pyramid. Further detail on the rationale for each theme and the types of company to be invested in within each theme is below:

Social Inclusion and Education: Income and wealth inequalities have risen significantly over the past 30 years and now threaten the acceptance of capitalism as a force for good. The Target Fund will seek to invest in companies that are building a more inclusive society and/or are improving the quality or accessibility of education as the diffusion of skills and knowledge is one of the best tools to reduce inequality.

Environment and Resource Needs: The environmental impact of human activities is increasing, and basic resources such as food and water are becoming scarcer. Throughout history, climate change and famine have repeatedly limited the development of nations. Left unresolved, those problems could jeopardise international relations, destabilise our society and damage our planet. The Target Fund will seek to invest in companies that are improving resource efficiency and reducing the environmental impact of economic activities.

Healthcare and Quality of Life: People are living longer but not necessarily healthier. People are richer but are not necessarily happier. The stress of modern life is damaging to physical and mental health. The Target Fund will seek to invest in companies that are actively improving the quality of life in developed and developing countries.

Base of the Pyramid: Economic growth has led to improvements in living conditions in many parts of the world. However, the fruits of human ingenuity have not filtered down to everyone. The Target Fund will seek to invest in companies that are addressing the basic and aspirational needs of the billions of people at the bottom of the global income ladder.

Investments will initially be selected by the Investment Manager based on its own research. The impact analysts within the Investment Manager conduct independent analysis of a company's products and services to assess whether they contribute to one of the social impact themes. The impact analysis is carried out using a framework that is based upon assessing three factors: (i) intent, (ii) product impact and (iii) business practices. Further information on these three factors is below.

Intent: Understanding a company's intent towards delivering positive change can help the Investment Manager to understand how likely it is that the company will deliver on the expected impact which involves considering a company's mission and how it is implemented; its strategy; actions commitments and structures; and influence on wider society.

Product Impact: All companies in the Target Fund's portfolio are included because their products and/or services address a global environmental or social challenge. The Investment Manager's assessment of product impact considers the relationship between the product and the problem; the breadth and depth of the impact; and the materiality of the product or service both in the context of the business and the problem. As part of the assessment of product impact, the contribution that the companies' products and/or services are making to the Sustainable Development Goals (SDGs) is mapped by using the 169 targets that underpin the SDGs. Companies are assessed to determine which targets they are contributing to through the delivery of their products and the SDG mapping methodology and process has been independently assessed by a third party auditor.

Business Practices: Understanding a company's ESG business practices helps to determine whether it can achieve sustainable growth which involves considering a company's actions across the full value chain and its relationships with all stakeholders.

A positive change impact report is published annually and is publicly available on the Baillie Gifford website. This report shows how each company in the portfolio is delivering positive change through its products and services. Key metrics for each individual company in relation to the contribution made by their products and services to the four impact themes and their contribution to the SDGs are included in the report.

In addition, the Investment Manager will:

- a) assess equities using a norms-based evaluation and will comply with the Investment Manager's policy on assessing breaches of the United Nations Global Compact Principles for Business as outlined in its Stewardship Principles and Guidelines; and
- b) exclude from the Target Fund's holdings the following companies:
 - i. companies that derive 10 per cent. or more of annual revenues from the production of military weapon systems and components, and provision of support systems and services for production of military weapon systems and components;
 - ii. companies that derive 1 per cent. or more of their annual revenues from the exploration, mining, extraction, distribution or refining of thermal coal;
 - iii. companies that derive 10 per cent. or more of their annual revenues from the exploration, extraction, distribution or refining of oil;
 - iv. companies that derive 50 per cent. or more of their annual revenues from the

exploration, extraction, manufacturing or distribution of gas;

- v. companies that derive 50 per cent. or more of their annual revenues from electricity generation with a GHG intensity of more than 100g CO₂ e/kWh;
- vi. companies involved in the production of tobacco.

The Investment Manager deems the application of the process outlined above including the application of the Investment Manager policy on controversial weapons as outlined in its Stewardship Principles and Guidelines is in keeping with the exclusion criteria referred to in Article 12(1)(a) to (g) of Commission Delegated Regulation (EU) 2020/1818.

These assessments will be made by the Investment Manager's own research (including company engagement) and a combination of third party data sources (such as Sustainalytics and MSCI). These considerations apply at the time of acquisition of the equity securities and in the event of any subsequent inadvertent holding of an equity security not aligned with these considerations, the Investment Manager shall seek to dispose of any such securities as soon as reasonably practicable in line with Baillie Gifford's Divestment Policy as outlined in the Investment Manager's Stewardship Principles and Guidelines. The assessment of whether companies follow good governance practices requires active engagement and demonstration of stewardship through company engagement and analysis in accordance with the stewardship principles included in the Investment Manager's Stewardship Principles and Guidelines. Please see section entitled "Sustainability Risks" under section entitled "Risk Factors" for more details.

The Target Fund's performance (after deduction of costs) is measured against the MSCI ACWI Index (the "Index"), details of which are set out in Schedule VII. The Target Fund seeks to Materially Outperform the Index over the long term. Details of the Target Fund's performance relative to the Index are available in the Target Fund's KIID and are for illustrative purposes only. There is no guarantee that the Target Fund's performance will match or exceed the Index over the long term and for any given year the Target Fund may either outperform or underperform the Index.

The Target Fund is actively managed and the Investment Manager uses its discretion to invest in assets which are not included in the Index or with weightings different to that of the Index. For the avoidance of doubt, the Investment Manager considers that the Index is not used for the purpose of determining or constraining the composition of the Target Fund's portfolio. This Index is not used as a reference index to attain the sustainable investment objective as the Target Fund does not align its sustainable investment objective with that of the Index.

The Base Currency of the Target Fund is U.S. Dollars.

Strategies and Policies of the Fund

For the financial period under review, the Fund had complied with the requirements of the Guidelines on Sustainable and Responsible Investment Funds ("SRI").

The Fund seeks to achieve its investment objective by investing a minimum of 85% of the Fund's net asset value (NAV) in the Target Fund. This implies that the Fund has a passive strategy.

The Fund is a qualified SRI fund. It invests in the Target Fund that adopts the "impact investing" strategy. This includes screening, selection, monitoring and realization of

the Target Fund's investments by the Investment Manager. The Target Fund will adopt the following strategy to ensure that the companies that the Target Fund invests in are in line with the sustainability principles adopted and the overall impact of such investments of the Target Fund is not inconsistent with any other sustainability principles.

The Target Fund invests primarily in the equities of companies whose products, behaviour and/or services in the Investment Manager's opinion, deliver a positive social impact and change by contributing toward a more sustainable and inclusive world. The Target Fund will invest in equities of companies which are listed, traded or dealt in on regulated markets worldwide. Companies that make a positive social impact are selected on an individual stock selection basis by a dedicated team of portfolio managers, using a 'bottom-up' approach and drawing on their own research and that of other investment teams at Baillie Gifford. The Investment Manager seeks to identify companies for whom delivering a positive social impact is core to their business; whose products, behaviour and/or services represent an improvement to the prevailing practices; and who conduct business with honesty and integrity. This will include companies addressing critical challenges in the four impact themes, each of which represent key global challenges: (i) social inclusion and education, (ii) environment and resource needs, (iii) healthcare and quality of life and (iv) base of the pyramid (i.e. addressing the needs of the poorest four billion people in the world). Further detail on the rationale for each theme and the types of company to be invested in within each theme is below:

Social Inclusion and Education: Income and wealth inequalities have risen significantly over the past 30 years and now threaten the acceptance of capitalism as a force for good. The Target Fund will seek to invest in companies that are building a more inclusive society through business practices or products and services as well as those that are improving the quality or accessibility of education as the diffusion of skills and knowledge is one of the best tools to reduce inequality.

Environment and Resource Needs: The environmental impact of human activities is increasing, and basic resources such as food and water are becoming scarcer. Throughout history, climate change and famine have repeatedly limited the development of nations. Left unresolved, those problems could jeopardise international relations, destabilise our society and damage our planet. The Target Fund will seek to invest in companies that are improving resource efficiency and reducing the environmental impact of economic activities.

Healthcare and Quality of Life: People are living longer but not necessarily healthier. People are richer but are not necessarily happier. The stress of modern life is damaging to physical and mental health. The Target Fund will seek to invest in companies that are actively improving the quality of life in developed and developing countries.

Base of the Pyramid: Economic growth has led to improvements in living conditions in many parts of the world. However, the fruits of human ingenuity have not filtered down to everyone. The Target Fund will seek to invest in companies that are addressing the basic and aspirational needs of the billions of people at the bottom of the global income ladder.

Investments will initially be selected by the Investment Manager based on its own research. The impact analysts within the Investment Manager conduct independent analysis of a company's products and services to assess whether they contribute to one of the social impact themes. The impact analysis is carried out using a framework that is based upon assessing three factors: (i) intent, (ii) product impact and (iii) business practices. Further information on these three factors is below.

Intent: Understanding a company's intent towards delivering positive change can help the Investment Manager to understand how likely it is that the company will deliver on the expected impact which involves considering a company's mission and how it is implemented; its strategy; actions commitments and structures; and influence on wider society.

Product Impact: All companies in the Target Fund's portfolio are included because their products and services address a global environmental or social challenge. The Investment Manager's assessment of product impact considers the relationship between the product and the problem; the breadth and depth of the impact; and the materiality of the product or service both in the context of the business and the problem. As part of the assessment of product impact, the contribution that the companies' products are making to the Sustainable Development Goals (SDGs) is mapped by using the 169 targets that underpin the SDGs. Which targets the companies are contributing to through delivery of their products is assessed and the SDG mapping methodology and process has been independently assessed by a third party auditor.

Business Practices: Understanding a company's business practices helps to determine whether it can achieve sustainable growth which involves considering a company's actions across the full value chain and its relationships with all stakeholders.

A positive change impact report is published annually and is publicly available on the Baillie Gifford website. This report shows how each company in the portfolio is delivering positive change through its products and services. Key metrics for each individual company in relation to the contribution made by their products and services to the four impact themes and their contribution to the SDGs are included in the report.

The Target Fund's investment strategy adopts the above investing strategy. If the Target Fund's investments become inconsistent with its investment strategies, the Investment Manager shall dispose of the investment(s) within an appropriate timeframe.

Even though the Fund is passively managed, the Fund's investments will be actively rebalanced from time to time to accommodate for subscription and redemption requests, price movements or due to reasons beyond Manager's control. During this period, the Fund's investment may differ from the stipulated asset allocation. Additionally, the Manager do not intend to take temporary defensive measure for the Fund during adverse market, economic, political or any other conditions to allow the Fund to mirror the performance of the Target Fund.

The Manager may, in consultation with the Trustee and with the approval of the Unit Holders, terminate the Fund or replace the Target Fund with another fund that has similar objective if, in the Manager's opinion, the Target Fund no longer meets the Fund's investment objective. The replacement target fund must meet the requirements of the Guidelines on Sustainable and Responsible Investment Funds, where applicable. If the Target Fund no longer meets the requirements of the Guidelines on Sustainable and Responsible Investment Funds, the Fund's SRI status will be revoked.

Portfolio Structure	The table below is the asset allocation of the Fund as at 31 July 2026 and 30 April 2026.			
		As at 31.07.2026 %	As at 30.04.2026 %	Changes %
	Foreign Collective Investment Scheme	91.46	92.06	-0.60
	Forward contracts	-*	-0.04	0.04
	Money market deposits and cash equivalents	8.54	7.98	0.56
	Total	100.00	100.00	
	*represent less than 0.01%.			
For the financial period under review, the Fund invested 91.46% of its NAV in the foreign Collective Investment Scheme, less than 0.01% in forward contracts and the balance of 8.54% was held in money market deposits and cash equivalents.				
Cross Trade	There were no cross trades undertaken during the financial period under review.			
Distribution/ Unit Splits	There are no distribution and unit split declared for the financial period under review.			
State of Affairs	There has been neither significant changes to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unitholders during the financial period under review.			
Rebates and Soft Commission	During the period, the management company did not receive soft commissions by virtue of transactions conducted for the Fund.			
Market Review	Markets are increasingly shaped by short-term sentiment: prices move quickly, momentum builds quickly, and attention concentrates around a small group of companies and themes. That creates risk — it can make markets feel more unsettled and performance uneven over shorter periods — but it can also create opportunity. Beneath the headline index return, the gap between the market's winners and losers has widened to levels not seen since the technology bubble and the global financial crisis, as the market's expectations for future growth increasingly depend on a smaller set of companies. Artificial intelligence has been the clearest example of where market attention has concentrated. But we do not think the opportunity is simply to own anything connected to AI. As with any transformative technology, the key question is which parts of the ecosystem will capture the lasting economic value. There remains significant uncertainty about which technologies will win out, where competition may emerge and whether the social and economic benefits will be as transformative as today's valuations imply. Not every company participating in the AI gold rush will be a long-term winner. It is precisely here that a discerning, long-term approach comes into its own. Navigating an extraordinary period of global turmoil and historically concentrated markets has certainly brought challenges of late. But against this backdrop of uncertainty and change, we have remained resolute in our philosophy, broad in our thinking, and long-term in our horizon. Source: Baillie Gifford & Co			

Market Outlook	The Impact Report is a moment to reflect, but not to rest. We remain ambitious and opportunity-seeking. The portfolio is built from businesses that tend to combine strong balance sheets, real pricing power and the organisational agility to keep investing through difficult periods. We remain disciplined on valuation, seeking to pay sensible prices for growth and quality. We cannot predict which companies will lead markets next quarter. But we know what we are looking for: businesses whose progress can support attractive long-term returns while contributing to a more sustainable, more inclusive and healthier world. <i>Source: Baillie Gifford & Co</i>
A statement that the fund has complied with Guidelines on Sustainable and Responsible Investment Funds during the reporting period	Baillie Gifford Worldwide Positive Change Fund has complied with its investment strategy to invest at least 90% in the equities of companies whose products and/or services make a positive social and/or environmental impact. <i>Source: Baillie Gifford & Co</i>
Descriptions on sustainability considerations that have been adopted in the policies and strategies employed	The Target Fund aims to contribute towards a more sustainable and inclusive world by investing primarily in the equities companies whose products and/or services make a positive social and/or environmental impact in the Target Fund's four impact themes, each of which represent key global challenges: (i) social inclusion and education, (ii) environment and resource needs, (iii) healthcare and quality of life, and (iv) base of the pyramid (i.e. addressing the needs of the poorest four billion people in the world). The impact analysis is carried out using a framework that is based upon assessing three factors: (i) intent, (ii) product impact and (iii) business practices. The Target Fund will comply with the Investment Manager's policy on assessing breaches of the United Nations Global Compact Principles for Business as outlined in Baillie Gifford's Stewardship Principles and Guidelines document and will exclude from the Target Funds holdings: (i) companies that derive 10 per cent. or more of annual revenues from the production of military weapon systems and components, and provision of support systems and services for production of military weapon systems and components; (ii) companies that derive 1 per cent. or more of their annual revenues from the exploration, mining, extraction, distribution or refining of thermal coal; (iii) companies that derive 10 per cent. or more of their annual revenues from the exploration, extraction, distribution or refining of oil; (iv) companies that derive 50 per cent. or more of their annual revenues from the exploration, extraction, manufacturing or distribution of gas; (v) companies that derive 50 per cent. or more of their annual revenues from electricity generation with a GHG intensity of more than 100g CO₂ e/kWh; (vi) companies involved in the production of tobacco. <i>Source: Sustainable Finance Disclosure Regulation (SFDR) website disclosure for Baillie Gifford Worldwide Positive Change Fund</i>
Descriptions of the SRI Fund's policies and strategies achieved during the reporting period which must include, but are not limited to the following (a-g) :-	
(a) A review on sustainability	The Target Fund contributed towards a more sustainable and inclusive world by investing primarily in the equities of companies whose products and/or services made a positive social and/or environmental impact in the Target Fund's four impact

considerations of the SRI Fund's portfolio;	themes, each of which represent key global challenges: (i) social inclusion and education, (ii) environment and resource needs, (iii) healthcare and quality of life and (iv) base of the pyramid (i.e. addressing the needs of the poorest four billion people in the world). The impact analysis was carried out using a framework that is based upon assessing three factors: (i) intent, (ii) product impact and (iii) business practices. Through the product impact analysis, all companies in the Target Fund's portfolio met the sustainable investment objective of the financial product, because their products and/or services address a global environmental and/or social challenge. As part of the assessment of product impact, the contribution that the companies' products and/or services made to the United Nations Sustainable Development Goals (SDGs) was mapped using the 169 targets that underpin the SDGs. The SDGs are made up of 17 goals, some of which can be mapped on a high-level basis against the six environmental objectives outlined in the EU Taxonomy. The Target Fund did not invest in line with a predetermined environmental theme, and there was no commitment as to which specific environmental objectives in the EU Taxonomy the Target Fund would contribute to. <i>Source: Baillie Gifford & Co</i>
(b) The proportion of underlying investments that are consistent with the SRI Fund's policies and strategies	In order to meet the sustainable investment objective promoted by the Target Fund, it generally invests at least 90% of its total assets in equity securities of companies (directly although it may also invest indirectly through eligible collective investment schemes) whose products and/or services make a positive social and/or environmental impact in the Target Fund's four impact themes, each of which represent key global challenges. This includes a minimum of a 1% commitment to invest in sustainable investments with an environmental objective aligned with the EU Taxonomy. The remaining proportion of the investments will be used for liquidity and/or efficient portfolio management purposes and any minimum environmental and/or social safeguards regarding this remaining proportion of the investments is covered in a specific section below. What is the asset allocation and the minimum share of sustainable investments? In order to meet the sustainable investment objective promoted by the Fund, it generally invests at least 90% of its total assets in equity securities of companies (directly although it may also invest indirectly through eligible collective investment schemes) whose products and/or services make a positive social and/or environmental impact in the Fund's four impact themes, each of which represent key global challenges. This includes a minimum of a 1% commitment to invest in sustainable investments with an environmental objective aligned with the EU Taxonomy. The remaining proportion of the investments will be used for liquidity and/or efficient portfolio management purposes and any minimum environmental and/or social safeguards regarding this remaining proportion of the investments is covered in a specific section below.  <pre> graph LR Investments[Investments] --> S1[#1 Sustainable] Investments --> S2[#2 Not Sustainable] S1 --> Env[Environmental] S1 --> Soc[Social] Env --> Tax[Taxonomy-aligned] Env --> Other[Other] </pre> #1A Sustainable covers sustainable investments with environmental or social objectives. #2 Not sustainable includes investments which do not qualify as sustainable investments. <i>Source: Baillie Gifford & Co</i>
(c) Where the	The Target Fund was actively managed and focuses on investing in equities of

SRI Fund's underlying investments are inconsistent with its policies and strategies, descriptions on steps undertaken to rectify the inconsistency	companies whose products and/or services make a positive social and/or environmental impact. The Target Fund employed an impact strategy as it contributed towards a more sustainable and inclusive world alongside capital growth over the long term. The Target Fund uses norms-based evaluation, business activity-based exclusions and active ownership in addition to the impact strategy to support the attainment of the promoted environmental and/or social characteristics and these are implemented on a continuous basis through ongoing compliance with, and monitoring of, the binding commitments. SFDR requires that products promoting environmental and/or social characteristics do not invest in companies which do not follow good governance practices. As such, the Investment Manager has a policy to apply 'good governance tests' on areas covering sound management structures, employee relations, remuneration of staff and tax compliance. <i>Source: Baillie Gifford & Co</i>
(d) Actions taken in achieving the SRI Fund's policies and strategies	To meet the sustainable investment objective of the Target Fund, the following indicators are used: i. The % of investments that meet the impact assessment. ii. The % of investments that have linkage with UN SDGs. iii. The % of investments that comply with the Investment Manager's policy on assessing breaches of United Nation's Global Compact Principles for Business. iv. The % of investments that comply with the business activity-based exclusions. v. The % of holdings voted. Reflecting that Positive Change has two objectives: investment returns and impact, there are two stages to the research process: fundamental company analysis and impact analysis. The Investment Manager looks for companies for whom delivering a positive impact is core to their business; whose products and services represent a significant improvement to the status quo; and whose people conduct business with honesty and integrity. <i>Source: Baillie Gifford & Co</i>
(e) A comparison of the SRI Fund's performance against the designated reference benchmark (if available)	No specific index has been designated as a reference benchmark for the purpose of attaining the sustainable investment objective. <i>Source: Baillie Gifford & Co</i>
(f) Descriptions on sustainability risk considerations and the inclusion of such risks in	The investments will initially be selected by the Investment Manager based on its own research. An independent analysis of a company's products and/or services will be conducted to assess whether they contribute to one of the four impact themes. The impact analysis is carried out using a qualitative framework that is based upon assessing three factors: (i) intent, (ii) product impact and (iii) business practices. All companies in the Target Fund's portfolio are included because their products and/or services address a global environmental or social challenge. As part of the assessment of product impact, the contribution that the companies'

the SRI Fund's investment decision making process	products and/or services are making to the UN SDGs is mapped by using the 169 targets that underpin the UN SDGs. Companies are assessed to determine which targets they are contributing to through the delivery of their products and the SDG mapping methodology and process has been independently assessed by a third party auditor. The Investment Manager will manage the Target Fund in order to align the Target Fund's holdings with the goal of net zero GHG emissions by 2050 or sooner, in line with global efforts to limit warming to 1.5C ("net zero"). As part of this process, all portfolio companies are actively assessed and prioritised for engagement for their alignment with net zero on an ongoing basis. The Target Fund will comply with the Investment Manager's policy on assessing breaches of the United Nations Global Compact Principles for Business as outlined in Baillie Gifford's Stewardship Principles and Guidelines document and will exclude from the Target Funds holdings: (i) companies that derive 10 per cent. or more of annual revenues from the production of military weapon systems and components, and provision of support systems and services for production of military weapon systems and components; (ii) companies that derive 1 per cent. or more of their annual revenues from the exploration, mining, extraction, distribution or refining of thermal coal; (iii) companies that derive 10 per cent. or more of their annual revenues from the exploration, extraction, distribution or refining of oil; (iv) companies that derive 50 per cent. or more of their annual revenues from the exploration, extraction, manufacturing or distribution of gas; (v) companies that derive 50 per cent. or more of their annual revenues from electricity generation with a GHG intensity of more than 100g CO₂ e/kWh; (vi) companies involved in the production of tobacco. <i>Source: Baillie Gifford & Co</i>
(g) Any other information, considered necessary and relevant by the issuer	No additional information deemed necessary or relevant by the issuer at this juncture. <i>Source: Baillie Gifford & Co</i>
Where the SRI Fund has provided previous periodic reviews, a comparison between the current and at least the previous reporting period	All holdings were in compliance with the sustainability indicators during the period. None of the sustainability indicators have been subject to an assurance provided by an auditor or a review by a third party. However, third-party assurance is provided over impact reporting produced in relation to the Positive Change investment strategy. For each of the five reported sustainability indicators — compliance with the UNGC Policy, compliance with sector-based exclusions, holdings voted in line with Voting and Engagement Guidelines, holdings qualitatively assessed to meet the impact criteria, and holdings qualitatively assessed to have a linkage with the SDGs — the reported proportion was 99.3% at both 30 September 2024 and 30 September 2025. The percentages represent the total portfolio less assets, such as cash or derivatives, which cannot count towards a positive assessment against the relevant indicator. <i>Source: Baillie Gifford & Co</i>
