NOTICE

To all Unit Holders / Distributors of AmSustainable Series – Global Lower Carbon Equity Fund (formerly known as Sustainable Series – Global Lower Carbon Equity Fund) (“Fund”)

RE: Fund Termination Notice

Dear Valued Unit Holders / Distributors,

Thank you for investing with us.

The Fund was launched on 23 May 2023 as a wholesale feeder fund which seeks to provide long-term capital growth by investing a minimum of 85% of its net asset value (“NAV”) in HSBC Global Investment Funds - Global Equity Climate Transition (*formerly known as HSBC Global Investment Funds – Global Lower Carbon Equity*). Despite our continuous efforts, the Fund’s size stood at RM101,220.80 as at 31 August 2026.

Having considered the Fund’s total expense ratio (“TER”) relative to its size, the ongoing costs of maintaining the Fund and the interests of Unit Holders, and following consultation with the trustee, we have decided to terminate and wind up the Fund pursuant to Clause 12.2.1 of the Fund’s deed and Section 10.6 of its information memorandum. The ongoing costs, including audit fees, tax adviser fees, trustee fees and management fees, would result in a relatively higher TER, which would not be optimal for investors.

Pursuant to Clause 12.2.1 of the Fund’s deed and Section 10.6 of the Fund’s information memorandum, we may terminate and wind up the Fund without obtaining prior approval from Unit Holders where the applicable conditions under those documents are satisfied. Following consultation with the trustee, we have determined that it is uneconomical to continue managing the Fund and that the termination is in the best interests of Unit Holders.

In view of the impending termination of the Fund, please be informed that all subscriptions and switching of units into the Fund have ceased with effect from 1 October 2026. We shall commence the liquidation of the Fund’s investments on 4 November 2026 (“Commencement Date”) and the liquidation is expected to be completed by 13 November 2026 (“Termination Date”), subject to prevailing market and settlement conditions. During this liquidation period, the Fund may not be able to fully adhere to its investment objective and strategy.

You may consider the following options for your investment:
