Fund Information

Fund Category/Type	Wholesale (feeder fund)/Growth.
Target Fund	Allianz Core Private Markets Fund.
Investment Objective	The Fund seeks to provide long-term capital growth. <i>Note: Any material change to the investment objective of the Fund would require unit holders' approval.</i>
Asset Allocation	<ul style="list-style-type: none"> • A minimum of 85% of the Fund's NAV in the Target Fund; and • A maximum of 15% of the Fund's NAV in liquid assets such as cash and deposits. For clarification, deposit includes cash with bank which pays interest.
Investor Profile	The Fund is suitable for sophisticated investors seeking: <ul style="list-style-type: none"> • exposure in diversified cross-asset private markets; • investment that provide capital growth; • long-term investment horizon.
Specific Risks associated with the Fund	Risk of a passive strategy, risk of not meeting the Fund's investment objective, currency risk, distribution risk, liquidity risk, redemption risk and suspension risk.
Income Distribution	Subject to the availability of income, the Fund endeavors to distribute on a quarterly basis. However, the amount of income available for distribution may vary from period to period. Any distribution declared, at the Manager's sole and absolute discretion, may be in the form of cash and/or Units. At the Manager's discretion, the Fund may distribute from its gain, income and capital. The rationale for distribution out of capital is to allow the Fund the ability to (i) distribute income on a regular basis in accordance with the distribution policy of the Fund or (ii) increase the amount of distributable income to the unit holders, after taking into consideration the risk of distributing out of capital. Distribution out of the Fund's capital has the effect of lowering the NAV of the Fund, may reduce part of the unit holders' original investment and may also result in reduced future returns to unit holders. When a substantial amount of the original investment is being returned to the unit holders, it has a risk of eroding the capital of the Fund and may, over time, cause the NAV of the Fund to fall. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.
Classes of Subscription	RM Class, RM-Hedged Class and USD Class.

Note: The Manager reserves the right to vary the frequency and/or amount of distribution for each of the Classes.

Fees and Charges

Entry Charge	Up to 5.00% of NAV per unit of the Class(es).
Exit Penalty	Nil.
Annual Management Fee	Up to 1.80% per annum of the NAV of the Fund and apportioned to each Class based on the multi-class ratio (MCR).
Annual Trustee Fee	Up to 0.04% per annum of the NAV of the Fund.

Note: The above fees and charges may be subject to any applicable taxes and/or duties imposed by the Government of Malaysia which are payable by the unit holder(s) and/or the Fund (as the case may be) at the prevailing rate.

Investments in the Fund involve risks including the risk of total capital loss and no income distribution. For further details on the Fund's information and risks, please refer to the Information Memorandum.
