About Principles for Responsible Investment

The Principles for Responsible Investment (PRI) is the world’s leading proponent of responsible investment. Supported by the United Nations, it works to understand the investment implications of environmental, social and governance (ESG) factors and to support its international network of investor signatories in incorporating these factors into their investment and ownership decisions. The PRI acts in the long-term interests of its signatories, of the financial markets and economies in which they operate and ultimately of the environment and society as a whole. Launched in New York in 2006, the PRI has grown to more than 5,000 signatories, managing over US\$121 trillion. For more information, visit www.unpri.org.
