**AmInvest Recognised as
Malaysia's Best Investment Management Company for Fifth Year**

AmInvest has won its fifth consecutive award as 'Malaysia's Best Investment Management Company' at the World Finance Investment Management Awards 2016 (Awards) based in United Kingdom. This impressive winning streak makes it the only investment management company in the history of the Awards to have achieved this.¹

Winners were chosen through a two-tiered exercise: firstly, a voting system and then judged by a panel of industry experts. Performance, service, leadership, consistency, targets and objectives on both the equities and fixed income fronts were among the judging criteria taken into account and in all these aspects, AmInvest stood out and was acknowledged for its achievements.

World Finance, based in the United Kingdom is a bi-monthly print and online magazine that provides comprehensive coverage and analysis of the financial industry, international business and the global economy.²

"It is a tremendous honour to receive this award for the fifth consecutive year, a true testament to our in-house investment expertise and capabilities built over more than 35 years of growing our investors' investments in all market conditions. Our ability to understand and anticipate the ever-changing market environment has given us the foresight ability to develop relevant investment solutions as well as a robust investment process to deliver consistent positive returns. We have multidisciplinary teams across different specialisations that bring the best practices of funds management to our business," said Datin Maznah Mahbob, Chief Executive Officer of AmInvest.

Since 2010, the growth of AmInvest's total assets under management (AUM) has been on an upward trend with an average growth of 8% annually.³ Its Shariah-compliant business itself has registered exponential average growth of 19% over the same period.³ Today, AmInvest manages assets worth around MYR36 billion. Its Shariah-compliant AUM accounts for about MYR7 billion with more than 50% invested in foreign assets.⁴

Datin Maznah added, "We are focused on providing relevant global investment solutions to global investors and seeking out the best investment opportunities in all market cycles. We look forward to increasing our global reach through ways which include offering and promoting investment strategies that can deliver better risk-adjusted returns and consistent returns with low volatility."
