AmInvest wins Malaysia's Best Investment Management Company Award for the Fourth Time

AmInvest has been awarded its fourth consecutive award as 'Malaysia's Best Investment Management Company' at the World Finance Investment Management Awards 2015 (Awards) based in United Kingdom, making it the only investment management company in the history of the Awards worldwide to have received and maintained such high standards.¹

Winners were chosen through a two-tiered exercise: firstly, a peer voting system and followed by a panel of independent industry experts.² Performance, service, leadership, consistency, targets and objectives in both the equities and fixed income spaces were among the judging criteria taken into account for the year ending 31 March 2014.

World Finance is a bi-monthly print and online magazine that provides comprehensive coverage and analysis of the financial industry, international business and the global economy.²

"Receiving this acknowledgement for our funds management capabilities and commitment to excellence for the fourth year and being the only company in the world to have achieved this is truly gratifying. We have always kept our eye on the ball which is consistent returns, the preferred outcome required by our investors and we believe that we can provide a compelling value proposition in the global marketplace, both the conventional and Shariah-compliant investment spaces in terms of risk and return across all asset classes," said Datin Maznah Mahbob, Chief Executive Officer, AmInvest.

AmInvest's total assets under management (AUM) has been growing at an average of 12% annually since 2009.³ Its Shariah-compliant business itself has recorded exponential average growth of 39% for the same period. As at August 2015, AmInvest's total assets under management (AUM) stood at approximately RM38 billion of which around RM7 billion was Shariah-compliant.⁴

Datin Maznah added, "Looking ahead, we remain focused on continuously growing our investors' investments by not only delivering consistent investment performance but providing investment solutions that can capitalise on opportunities in all market conditions. We will continue to increase our global presence through ways which include offering and promoting unique strategies which can deliver better risk adjusted returns, consistent returns at lower volatility compared to indices as well as average peer active funds, all at competitive prices."
